Dos ginecologo trahando

Señora manchando for di Augustus a haya cita te na December

Cuido medico ta hopi caro, riba dje e ta birando mas caro dia pa dia pero di otro banda, bida di hende ta algo precioso, algo cu no por wordo reemplasa y ta algo sagrado cu Dios a duna tur hende.

Miles di hende ta luchando cu nan salud, pa un of otro motibo y nan unico speransa ta di busca solucion y curacion cerca dokter di cas y si esaki no por nan lo ser dirigi pa un especialista.

Den un pais democratico, un pais rico manera Aruba, tur ciudadano tin derecho riba tratamiento medico y nan ta pone tur confiansa den nan dokter y especialista.

Sinembargo pa algun tempo caba den curso di e aña aki y por cierto, for di aña pasa caba, tin hendenan muhe cu ta rekeri ayudo di ginecologonan cu ta den servicio di AZV caminda for di un pa dos aña, e tempo cu ta dura pa nan wordo atendi pa un ginecologo, ta demasiado tempo.

Esunnan cu tin espacio financiero, tin ora ta dicidi di biaha pa exterior, caminda mayoria di nan ta resulta na Colombia ya cu den e pais ey, nan ta ser trata mucho mas rapido cu aki na Aruba.

AWEMainta a ser informa di un caso di un señora kende tin problema constante cu su regla di tur luna, caminda a un tempo esaki ta desaparece pero despues di algun luna e ta bolbe loke tampoco lo ta un problema serio.

Sinembargo na luna di Augustus ultimo, e señora aki despues di no a ricibi su regla pa tres luna largo, esaki a bin den e prome siman di e luna menciona, loke riba su mes no ta mester ta algo pa alarma di dje.

E ta bira algo serio ora cu dia 4 di October di 2023, pues dos luna largo, e señora ta mancha tur dia, algun dia e color di sanger ta normal pero otro dianan e ta mas scur cu normal, loke a crea inicialmente incomodidad cerca e dama aki.

A pidi su dokter di cas pa e bay busca conseho di un ginecologo pero ta bin resulta cu na e momentonan aki tin tres di e specialistanan aki den servicio di AZV pero un di nan ta preparando pa bandona Aruba y pa algun luna caba no ta mirando ningun pashent.

Awor den un caso asina, e pashent cu ta paga AZV tur

luna su contribucion, ta den un situacion delicado caminda inicialmente e no por a drenta den contacto cu un di e specialistanan aki y na momento cu el a logra di drenta den contacto cu oficina di un di nan, el a ser atendi corectamente pero el a wordo informa cu su cita ta marca pa prome siman di December.

Algo increibel ya cu esaki ta indica cu e pashent aki tin cu pasa ainda e luna di October, cu tin 31 dia, despues e luna di November cu tin 30 dia prome cu e por wordo atendi pa un ginecologo, mientras cu e situacion aki a afecta e señora no solamente e salud di e su persona pero psicologicamente ta afecta e pashent aki tambe.

Awor aki ta trata di un solo caso pero aparentemente tin cantidad di damanan cu ta pasando den mesun situacion caminda nan ta rekeri control y ayudo di un especialista pero pa falta di mas especialista, nan bida por ta coriendo peligro.

Un situacion cu den e tempo moderno aki, no tin mag di ta existi, un situacion cu ta rekeri solucion mas pronto posibel ya cu aki ta salud y tambe bida di hende ta coriendo peligro ya cu un hende muhe por mancha pa motibo di regla pero e sangramento aki tambe por ta nifica algo otro, algo mucho mas serio.

Ta di spera cu gobierno pa medio di Minister di Salubridad, Dangui Oduber atende cu e situacion aki ya cu e ta un problema hopi serio.

Investigacion caso Carti no ta completo y a habri'e bek

Un decision tuma door di Hof ta muestra cu investigacion haci den e caso di fisioterapista Rudy Carti no tabata completo. E tres Huesnan di Hof a haya necesario pa habri e investigacion y manda e dossier bek pa Hues Comisario pa scucha en total seis testigo.

Casi un luna pasa Hof a trata e caso cu a bay den apelacion. Corte den Prome Instancia a condena e fisioterapista y a dun'e un castigo di dos aña, di cual un aña ta condicional, c'un tempo di prueba di dos aña y pa cuater aña e no por eherce e profesion di fisioterapia. Esey tabata na october, 2021.

Esey tabata pa motibo cu a declar'e liber den cuater di e acusacionnan. Esaki tabata e punto cu nan no por a bay di acuerdo cu ne y a dicidi di apela.

Den Hof e acusado a presenta cu un otro abogado, mr. Helen Lejuez, kende hopi largo a papia di duda den declaracion di e denunciante y pa cual e ta kere cu mester scucha testigo prome cu por sigui cu e tratamento bek den Hof.

El a crea suficiente duda cerca e tres huesnan cu a dicidi cu ta habri e caso di nobo.

Corte den Prome Instancia a declar'e liber den cuater acusacion. El a haya un castigo di dos aña, kitando e tempo cu el a sinta den detencion preventivo afo, y un aña condicional, cu un tempo di prueba di dos Mester bisa cu den e caso aki tanto Ministerio Publico (OM) como e acusado a dicidi di apela. Carti pasobra e ta insisti di ta inocente y OM pa motibo cu e no ta di acuerdo cu a declar'e liber den e otro acusacionnan.

Y loke por a constata, segun Hof a bisa, ta cu niun di dos banda no a limita nan mes, cu ta nifica cu Hof mester bay evalua casi henter e dagvaarding di nobo.

P'esey a dicidi di tuma e decision aki, basa riba loke a bini dilanti tratamento di e caso profundo den Corte casi un luna atras. Pues a tene cuenta cu loke procurador general como e Abogado a trece dilanti.

PF a pidi pa declara Carti culpabel di cuater di e acusacionnan cu nan a apela, esta 1, 2, 4 y 6, cualnan a wordo declara liber den prome instancia. Y a pidi un castigo di 54 luna, kitando e tempo cu el a sinta caba y cu e no por eherce su profesion durante cuater aña.

Pa loke ta e demanda pa daño y perhuicio, el a pidi pa aproba e demanda di R pa un suma di 7440 florin, den e caso di F e suma di 5 mil florin. Pa e dama TJ a pidi pa otorga tambe 5 mil florin. Esun di CW declara su demanda no admisibel.

E abogado a pidi pa declara su cliente liber di TUR acusacion. Ora di analisa e cas Hof a tuma nota cu tin diferente testigo

cu no a scucha. Pa tin un dossier completo ta necesario pa toch scucha cierto testigonan. Pa e motibo aki a dicidi a duna ordo pa reanuda e investigacion den Corte. Como tal, ta manda e caso pa Hues Comisario, pa por scucha e testigonan en cuestion.

A manda tur documento pa Hues Comisario pa e scucha un total di seis testigo cu ta relaciona cu tres di e denunciante. Mester scucha e personanan aki hopi lihe pa motibo cu a pone e fecha di 21 di november, pa tratamento di e caso sigui pa 2:00 pm, for di Corsou via di transmision online.

HISTORIA

Ministerio Publico a presenta 8 diferente acusacion contra e fisioterapista Rudy Carti a base di e denuncia haci, Y e hecho cu den cuater acusacion Corte a declar'e liber sigur no a cay den bon tera cerca e fiscalnan y tampoco cerca e denunciante. Esey tabata den e prome siman di october, 2021.

Despues di a haci un evaluacion, fiscal a dicidi cu Ministerio Publico no por acepta cu den nada menos di cuater caso a declar'e liber. Net un dia prome cu e fecha pa apela a vence, a dicidi di entrega e motibonan pakico ta bay contra e decision. E acusado tambe a apela.

E tempo ey, door cu a apela, a ordena Carti pa e entrega su mes debi cu a apela e sentencia, pasobra a lag'e liber. El a haci esaki tambe pa cumpli cu ley.

Sinembargo a tarda demasiado tempo, door di acumulacion di trabou na Hof, pa cual mester a lag'e liber.

Tres caso di hincamento

Studiantenan na Utrecht ta ser pidi pa ta cauteloso riba caya

Autoridadnan policial di e ciudad di Utrecht, a bati alarma pa principalmente damanan hoben y den e caso aki, principalmente studiantenan, despues cu den un siman di tempo, tres estudiante a wordo hinca cu cuchiu.

Te ainda autoridadnan no sa identidad di e persona aki y polis ta kere cu e tipo aki lo por bolbe comete e agresion arma aki, caminda tur cos ta muestra cu e criminal aki ta tirando bista riba hobennan cu ta canando principalmente riba Balijelaan di e ciudad aki.

Polis a haci un solicitud pa pidi principalmente hobennan pa keda cas den oranan di anochi pero na mes momento exper-tonan ta muestra cu lo a bon studiantenan Sali den grupo y no cana cu miedo riba caya, ya cu e tipo di criminalnan aki, mas tanto ta persigui hobennan cu ta muestra nervioso y cu miedo riba caya.

Ta bon pa mayornan cu tin yiunan studiando na e ciudad di Utrecht, pa spierta e studiantenan aki pa nan ta mas cauteloso ora cu nan Sali y cana riba caya publico, principalmente den e barrio di Balijelaan.

Pa algun tempo caba, principalmente den e periodo di post pandemia covid, casonan di hincamento a aumenta drasticamente na Hulanda, caminda hobennan ta hinca otro na actividadnan publico, den clubnan nocturno of tambe den cualkier cafe caminda hobennan ta sinta combersa.

Mayoria di e casonan aki tin hobennan involvi, caminda hasta tin casonan caminda hobennan di 14 of 16 aña a yega di hinca hende den un discusion cu a surgi y lamentablemente tin hopi caso fatal den e grupo aki.

AWEMainta a ricibi informacion cu tin hobennan di Aruba cu tabata na algun di e sitionan caminda un of otro caso di

hincamento a tuma luga cual a afecta nan seriamente. Pero no ta solamente na e ciudad di Utrecht pero por ehempel tanto na ciudadnan grandi manera Rotterdam y Amsterdam a bin ta conoce hopi agresion arma cu a laga hopi hoben seriamente herida y hasta algun cu a perde nan bida den un of otro discusion of confrontacion.

Por lo general lo ta bon pa studiantenan di Aruba ta mas cauteloso cu e fenomeno aki cu tin den diferente ciudad Hulandes principalmente ultimo dos aña.

Uza fondonan di ATA pa proyectonan di gobierno no ta “good governance”

Aruba Tourism Authority (ATA) a converti su mes den un departamento esencial pa promocion y maneho di turismo di pais Aruba y sin duda ta funcionando den e miho forma posibel desde cu el ser crea.

Dirigi pa profesionalnan hopi capacita y dirigi pa haci tur cos pa engrandece e industria turistico di Aruba y caminda e forma con a traha duro pa turismo di e isla recupera for di e impacto negativo di pandemia riba turismo, ta sin duda cu e bon trabou ta sobresali.

Sinembargo ya na un ocasion AWE Mainta a yega di señala e hecho cu ATA a converti su mes den un fondo adicional pa gobierno uza pa inverti den aspectonan esencial pa loke ta e calidad di e producto turistico cu yama Aruba.

Gabinete Wever Croes II pa falta di fondo pa inverti den asuntonan esencial di e pais, tambe pa algun tempo caba a bin ta gastando practicamente henter e presupuesto di DOW pa atende cu varios proyecto entre otro pa algun proyecto chikito pa loke ta infraestructura.

Sinembargo pa algun siman caba tin indicacion cu e placa riba presupuesto di DOW a disparce manera ijs den solo y e situacion aki a hinca e departamento aki di obranan publico, den varios situacion precario caminda no tin mucho mas fondo cu a keda pa DOW ehecuta loke e tabatin planea pa

ehecuta den su presupuesto 2023.

Dialuna ultimo un biaha mas a mostra un otro cara di gobierno, caminda e biaha aki ta Minister Ursell Arends, tratando di kita atencion for di un maneho di desperdicio cu no ti pia ni cabes, a dicidi cu cooperacion un biaha mas di fondonan di ATA, pa lansa un campa cu awor ta carga nomber di ‘Aruba Limpi’.

Un campaña cu ta lanta duda e intencion tras di e esaki di parti di gobierno pero na mes momento e ta confirma e incapacidad di e maneho di Minister di Naturalesa kende ya tin un campaña andando y awor ta presenta un tipo di campaña nobo cu sosten di ATA pero c ta practicamente tin mesun meta.

“Limpi Limpi” ta un campaña cu Minister Ursell Arends a lansa na luna di Augustus caminda a dicidi di pone container den diferente bario caminda comunidad por bin pone nan desperdicionan di cas pa esakinan ser hiba na un sitio pa procesa esaki.

Un accion cu a inicia sorpresivamente na mes momento cu partido AVP tambe a inicia cu su campaña pa yuda ciudadanonan di diferente bario, haci nan bario limpi cual a indica den e bario di Dakota.

Dialuna ultimo, pa sorpresa di hopi hende, Minister Arends ta presenta hunto cu ATA y dos otro organisacion, su campaña di limpieza cu e nomber di Aruba Limpi cu a sirbi mesun proposito cu esun di Limpi Limpi.

Segun Minister Arends a mostra, “e campaña aki gobierno di Aruba, ta pone enfasis riba e rol cu cada un di nos tin pa tene Aruba limpi, incluso turistanan cu ta bishita e isla” y aki claramente e mandatario ta pronkia cu pluma di otro ya cu mientras cu e campaña nobo aki ta ser financia pa fondonan di ATA, e mandatario ta papia cu ta su gobierno ta ehecutando esaki.

Aki tin cu mostra cu e mesun Minister Arends aki, ta e Minister di Integridad kende semper a papia cu su gobierno ta hibando gobernacion segun reglanan di “good governance” pero analisando e forma cu su gobierno y su persona ta bay over na uza e fondonan aki di ATA cu mester ta dedica pa turismo, no ta cumpli cu e exigencianan di bon gobernacion.

Wardacosta tin un Director Suplente nobo

Wardacosta pa Reino Hulandes den Caribe for di 2 di october ultimo tin un Director Suplente nobo, señora Joëlle De Jong-Mercelina. E Director Suplente nobo ta bira responsabel pa ejecucion di tareanan di Wardacosta y ehecuacion di e maneho interno di Wardacosta, cu esaki e tin pues e guia diario den e organizacion.

Señora de Jong-Mercelina ta apto pa e funcion aki, danki na su carrera impresionante entre otro na Ministerio di Husticia na Corsou na unda su ultimo funcion tawata Secretario General Suplente. Su conocimiento amplio di mantencion di ley, aplicacion di ley internacional, ley maritimo y tambe su 'background' di relacionnan exterior por keda aplica na Wardacosta.

Banda di esaki e tawata miembro suplente di e 'Presidium' di e 'Kustwachtcommissie' di Wardacosta na nomber di Corsou y e tin experiencia como ex docente di Derecho Publico Internacional na Universidad di Antia Hulandes/Corsou. E ta tambe un ex miembro di VKC 'Vrijwilligerskorps' di Antia Hulandes. Joëlle lo ta e prome dama cu lo fungi den e funcion aki di Director Suplente di Wardacosta (PDKW). Wardacosta ta yama Joëlle De Jong-Mercelina bon bini na e organizacion y ta desea e hopi exito.

Accidente entre tres auto na Savaneta a laga dos persona herida y un homber deteni

Diamars anochi rond di 11'or y mey polis di San Nicolas ta bay cu urgencia mas pabou di Mariniers Kazerne, unda un accidente serio a tuma luga. E accidente a sosode un caminda unda den pasado accidente(nan) fatal a yega di tuma luga.

Na yegada di polis nan a bin topa cu tres vehiculo. Tawata trata di Toyota Yaris, un v-car Chevrolet Sonic y un auto marca Volkswagen. Dos persona a resulta herida; ambos ta hende muhe. Un herida tawata den e Yaris y e otro den e Volkswagen. Na yegada di Polis di Trafico agentenan cu a yega prome a splica nan colega di trafico local a sosode.

Despues di esey chauffeur di e v-car cu ta un cabayero Hulandes a wordo acerca door di polis; unda cu algun rato despues di scucha su version polis uza e Alco-Sensor. E resultado tawata cu e la surpasa e limite di alcohol stipula pa ley, y eynan mes e la wordo deteni.

Transportwagen a wordo pidi pa buske y hib'e warda di San

Nicolas. Pa local ta e heridonan, dos ambulance a presenta y un Rapidresponder, esnan herida a wordo transporta pa Hospital. Caminda a permanece cera pa basta rato; unda cu Takelwagen cu a yega mester a move e autonan y e auto cu a ocasiona e accidente aki cu ta e Chevrolet Sonic blauw a wordo hiba warda di Santa Cruz pa mas investigacion.

Eric Ras(Curpa):

Metanan di desaroyo sostenibel mester wordo rechasa categoricamente

Aruba ta sclama pa ayudo y nos tin politiconan cu ta mira mas nan beneficio personal politico cu beneficio di pueblo di Aruba en general. Tristo pa mira con negoshinan ta apoya e metanan di Desaroyo Sostenibel Agenda 2030 sin cu tin conocimiento kico ta come y bebe di e 17 puntonan. E agenda 2030 den un simpel contesta ta reduci poblacion mundial of miho bisa mata bo, kita bo libertad di expresion, lo bo no tin placa mas y na final nos tur tin cu biba den un estado comunista. No tabata tin pandemia sino un arma biologico pa sembra spanto y baha poblacion rond di mundo. E vacuna ta un experimento genetico cu tempo lo mata bo paso e ta parti di e plan. Gobernantenan rond di mundo a wordo informa di e plan diabolico aki y tin bisa cu nan a hasta haya placa pa ehecuta manera dr. Roberta Malone ta conta. Locual cu nos Prome Minister a firma a haci Aruba e prome isla den Caribe join CommonTrust Network di world economic forum cu ta forma parti di Sustainable Development Goals.

Pueblo no lubida e lema aki: **Lo Bo No Tin Nada Y Lo Bo Ta Feliz**. Comerciantenan por wel di lubida existencia di nan negoshi, lubida riba concierto paso for di un pueblo bashi lo bo no por saca nada.

Nos por a mira lider di AVP a bay cerca OPPA

pa presenta un documento. Partido AVP tambe ta apoya e Sustainable Development Goals y e lider partido AVP tabata parti di esaki na New York hunto cu e premier Hulandes dia 23 di September 2015. Common Good of bon comun tambe ta forma parti di e Sustainable Development Goals. E metanan di desaroyo sostenibel ta contra di e bienestar di nos grandinan paso nan ta un peso pa comunidad. Pa Aruba progresa nos mester honra nos grandinan.

E Hulandesnan a imprimi mas cu 1 miyon flyers y a cuminsa parti'e rond pa educa e pueblo Hulandes kico ta spera e pueblo Hulandes si no para e agenda di world economic forum. Cuminsa busca informacion www.StopWorldControl.com. Lubida di tin cuminda saludabel. Prepara pa come insecto manipula geneticamente traha den fabrica y carni traha den laboratoriuim, lubida biahamento paso e ta malo pa e clima y biba den 15-minute smart city. Aruba nos mester lanta para pa nos libertad.

E agenda diabolico aki kier legalisa pedofil. Kier impone enseñansa na scolnan preparatorio cu mester pusha e muchanan na edad hoben pa tene relacion sexual ya cu edad no ta importante. Esaki ta duna nos di compronde cu legalisacion di pedofil ta na caminda si nos como pueblo no lanta para y bisa ta basta. Un pueblo ta aparece pa falta di conocimiento.

Nos por a tende cu un grupo di pastooran tabata tin un reunion politico luna pasa cu e parlamentarionan supuestamente Cristian. Un reunion caminda a papia mas ariba bida di lider di partido Curpa di mas cu 20 aña pasa. E grupo di pastooran aki ta demostra un falta di etica pa papia tras di lomba di un hende cu no ta presente y ta otro demostracion di hendenan cu ta carece di falta di amor di Dios. Enbes e lidernan religioso aki bisa e supuestamente cristiannan aki pa scoge pa Dios of scoge pa satanas. Pa placa boso ta laga e famia institui pa Dios wordo persigui pa mesun gobierno cu e parlamentarionan supuestamente Cristian ta sostene. Un Cristian berdadero nunca por apoya un gobierno cu tin un agenda satanico. Nos ta na un crusada di decision of ta nan of ta e pueblo cristian. Diesdos'or a bati dia caba y cueste lo que cueste mester pone paro na e agenda cu gobierno a hinca su mes aden cu ta contra di e bienestar general di nos pueblo. Si kier manifestacion anto mester bin un manifestacion pacifico caminda cu e mensahe cu ta bay na gobierno ta baha paso e gobierno aki ta desgracia bienestar di nos pueblo y no pa gaña di muri y mira ken ta yora. Straño ta cu e grupo di pastooran aki no a formula un carta caminda cu ta condena e postura cu nos minister president a tuma. Tempo di prome minister den e gobierno di AVP a bay bebe ensure banda di Willem III toren si a manda un carta pa su persona pa pidi pordon na Hulanda y na gobernador.

E gobierno no tin mucho dia mas di bida paso tur cu bay contra leyman di Dios lo termina malo y nan lo paga pa locual cu nan a sembra. Partido Curpa lo sa di honra nos grandinan. Unico partido cu a para pa e famia institui pa Dios ta partido Curpa y p'esey partido Curpa ta keda e unico alternativa.

Minister Ursell Arends:

Abo ta doño di mascota responsabel?

Riba dia di bestia nos kier haci e pregunta: *Abo ta un doño di mascota responsabel?*

Bo ta na altura di nos Ley di Cacho? Bo ta cuida e salud di bo mascota? Bo a sterilisa y microchip bo mascota? Bo cacho ta den bo cura? Esakinan ta preguntanan cardinal cu cada doño di mascota responsabel lo contesta cu un SI!

Awe Ministerio di Transporte, Integridad, Naturalesa y Asuntonan di Adulto Mayor hunto cu Centro di Control di Cacho ta lansa e campaña di conscientisacion relaciona cu cuido responsabel di mascota. Durante e campaña aki lo bay duna hopi informacion ariba diferente topico manera Ley di cacho, cuido di salud di mascota, sterilisacion, microchip, eutanasia y tambe informacion di nos fundacionnan. Esakinan ta informacion importante cu cada doño di mascota responsabel mester ta na altura di dje.

Durante ultimo añanan nos a observa un crecimiento di cantidad di cacho y pushi ariba caya. Esaki ta algo di lamenta paso e causa di e problematica aki ta doñonan di mascota irresponsabel cu ta busca cacho y pushi sin tin e manera pa cuida nan pa despues bandona nan pa nan cuenta ariba caya.

Cacho y pushi ta animalnan domestico cu ta depende 100% di nan doño y ora cu bo ta bandona nan, ta biba un bida cruel cu hopi dolor y sufrimento. Ademá cu nan ta sufri nan lo bay reproducir y esaki ta caminda nos ta awe. Cu un problematica cu ta afectando nos tur ariba e isla aki y e ta importante pa nos realisa cu un cambio di mentalidad so nos por yega na un impacto positivo pa alivia e situacion cu nos tin actual.

Na Aruba nos tin hopi fundacionnan cu ta haci e trabou pa rescata animal riba caya tur dia. Pero despues di hopi aña di rescata animal di caya, awo mayoría a yega nan capacidad maximo. Esaki ta pone cu nan no por yuda comunidad tur ora, paso nan mes ta yena cu cacho y pushi cu nan a rescata for di caya. Locual cu impresionante ta cu no obstante cu fundacionnan ta yuda y rescata nos animalnan di caya, nos hendenan local mes no ta adopta frecuentemente for di un fundacion. Como resultado, tur fundacion ta keda cu mayoría cacho of pushi cu nan ta rescata. Consecuencia di esaki nos ta wak cu recientemente hopi fundacion a pone un stop temporal pa tuma mas animal bou di nan cuido.

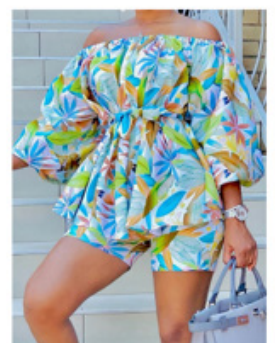

Prome cu bo busca un cacho of pushi haci bo mes e pregunta aki: Ami ta un doño di mascota responsabel? Mi por dun'e

cuminda y awa limpi tur dia? Mi tin un cura y cas cu e ta keda safe? Mi por paga pa su cuido di salud tur luna? Mi por paga pa sterilisa y microchip? Si bo contesta ta un SI na e preguntanan aki e ora bo ta un doño di mascota responsabel.

E problematica di sobre poblacion di cacho y pushi ta grandi, pero hunto como comunidad consciente nos por duna nos mascotanan e bida cu nan merece! Ban sea doño di mascota responsabel.

Bishita www.amitaresponsabel.org pa mas informacion!

Bin bishita nos y probecha!

Paña di bon calidad na bon prijs.

Programa di beneficio pa empleado HOH SUN SHARES ta un realidad HOH un organisacion prominente y ehempel pa otro den nos comunidad

Horacio Oduber Hospital como un di e organisacionnan di mas grandi riba nos isla di no menos di 1100 empleado tin como enfoka pa cuida pashent y cliente, pero tambe cuida nos empleadonan y medio ambiente. Tambe teniendo na cuenta cu un di e fundacionnan di HOH ta pa ta financieramente sostenibel, recientemente a firma un MOU (Memorandum of Understanding) cu e compania local B-Energy pa ofrece panel solar como beneficio na nos empleadonan. Un momento sumamente grandi unda finalmente a introduci e programa pa empleado yama HOH SUN SHARES.

Algun luna pasa a saca un encuesta interno pa midi e interes bou di empleadonan den loka ta adkiri panel solar pa nan

cas. Debi na e tremendo reaccionnan ricibi, team di maneho a cuminsa negosha cu diferente companianan local cu ta ofrece panelnan solar. Y finalmente a scoge e compania cu a bin cu e miho oferta pa HOH y su empleadonan cu a resulta den e compania local B-Energy.

Un momento sumamente importante y alabes grandi mirando cu e ta posiciona HOH como un dunado di trabou cu ta ehempel pa hopi eyfo mirando cu banda di ofrece un beneficio na un miho prijs y interes abou HOH ta cuida medio ambiente tambe. Recientemente Hunta di Directiva di HOH a sorprende e team completo di HOH cu e tremendo noticia aki cual tin hopi tempo ta traha riba dje pa haci'e un realidad.

Awo tur colega na HOH cu ta interesa di tin nan propio panelnan solar na cas lo por haya esaki danki na nan dunado di trabou na un miho prijs y cu interes mas abou cu e programa interno HOH SUN SHARES. E fuente di energia renobabel aki lo spaar coleganan energia, reduci cuenta di electricidad, e ta bon pa medio ambiente y ta aumenta e balor di e cas.

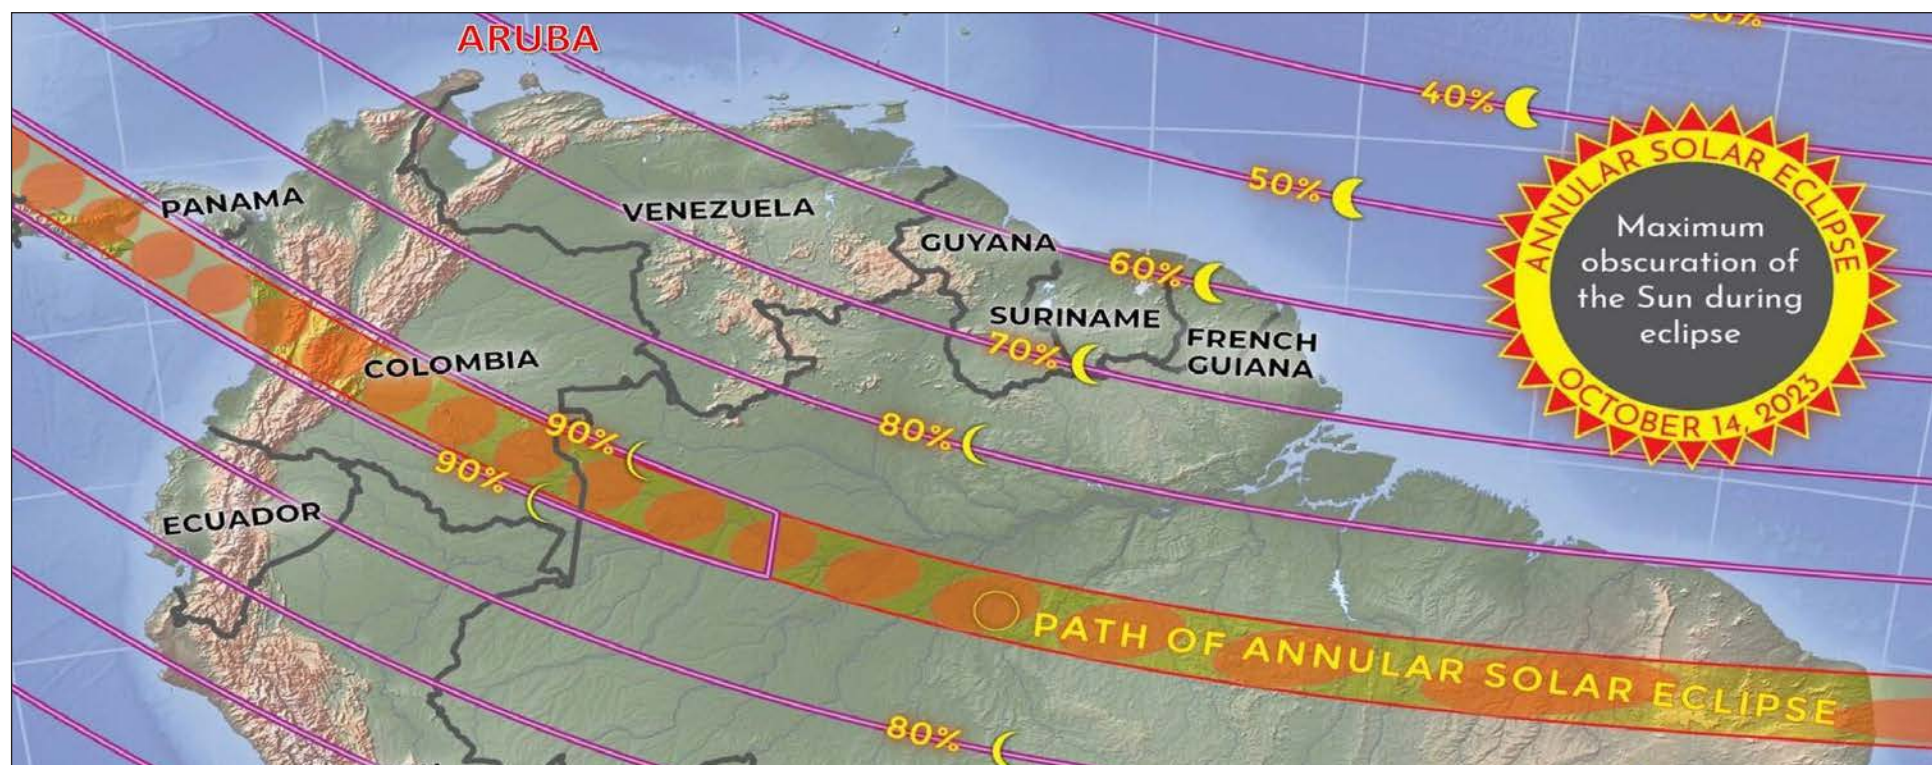

Awo cu HOH a firma e acuerdo aki cu e compania local B-Energy lo start cu sesionnan di informacion den luna di october pa asina presenta kico e programa aki ta encera pa tur empleadonan.

Hunta di Directiva di Hospital hunto cu team di maneho ta sumamente orguyoso di e paso aki cu a tuma pa añadi mas beneficio pa nos empleadonan haciendo HOH un compania profesional cu ta cuida pashent y cliente, pero tambe ta cuida nos empleadonan y medio ambiente.

Aruba AstroFest 2023

Descubri e misterionan di e universo y presencia un Eclipse Solar Parcial

Dia 14 di october proximo nos shelo ta preparando pa un baile celestial entre e solo y e luna, esaki ta uno cu bo no lo kier perde cual lo ta un eclipse solar anular. E luna lo proyecta un silueta celestial espectacular, aunke parcial for di nos punto di bista riba e solo. Un espectáculo no comun caminda Aruba henter lo experencia un solo tapa 60%, creando un fenomeno cu hopi hende den e region ta desconoci cu ne.

Probechando di e evento cosmico aki, e organizacion local di astronomia, 'Space and Nature Aruba Foundation' ta sumamente contento di anuncia e 'Aruba AstroFest 2023', un evento unico den su forma pa asombra e comunidad cu e maraviya di e universo. E evento lo tuma luga diasabra 14 di october na EPB Hato for di 12:00 PM te cu 4:30 PM di atardi. E organizacion ta extende un invitacion na e comunidad di Aruba pa atende den un exposicion cu sigur lo asombra y hisa bo interes pa sa mas di nos universo.

Kico por spera na Aruba AstroFest 2023?

- Transmision di e eclipse solar parcial en vivo ariba un screen grandi pa tur por mira.
- Introduccion di e prome Planetario movibel di Aruba - un entrada pa e universo aki mes riba nos isla.
- Workshops di eclipse Solar y Lunar.
- Presentacion di poster di e International Astronomical Union (IAU).
- Un paseo den e sistema solar y planetanan.
- Presentacion di e telescop construi pa studiantenan di EPB.

- Lo bay tin un cushina cu diferente snacks y cos pa bebe y hidrata durante e evento celestial.
- Diferente organizacion educacional den sencia y tecnologia.

Siguridad ta sumamente importante na e evento! E eclipse solar parcial ta un espectáculo asombroso, pero sumamente peligroso pa mira directamente. Ta suplica pa tur hende cu kier mira e eclipse solar parcial pa bisti solamente brillnan ISO certifica specialmente diseña pa mira eventonan asina. Tambe ta recomenda pa reemplasa brillnan bieu uza den pasado. E eclipse solar parcial lo cuminsa 12:43 PM y ta yega un maximo di 60% pa masomenos 2:27 PM y lo conclui pa masomenos 4:02 PM di atardi. Brillnan pa mira e evento aki ta disponibel pa cumpra via e fundacion su pagina di Facebook como tambe na e evento.

Kico ta un eclipse solar parcial? Un eclipse solar parcial ta sosode ora un parti di e solo ta wordo tapa pa e luna. E evento aki ta diferente na un eclipse solar total manera Aruba a conoce 26 di februari 1998. Den un eclipse solar anular of parcial e solo y e luna no ta perfectamente alineá y como tal un parti di e solo so ta wordo tapa. Un eclipse solar anular ta wordo yama tambe "Ring of Fire". Un eclipse solar parcial por sosode mas frecuente.

Pa mas informacion tocante di e eclipse y Aruba AstroFest 2023, sigui nan riba Facebook na <https://www.facebook.com/SpaceNatureAruba> of tuma contact cu nan via e-mail na info@spacenaturearuba.com

CEDE Aruba y Universidad di Aruba ta establece un colaboracion importante

CEDE Aruba, nos organisacion local cu ta dedica na desaroyo social y sostenibel a firma un Memorandum di Entendimiento (MoU) cu Universidad di Aruba. E meta principal di e acuerdo aki ta pa drenta den un colaboracion den e area di educacion y desaroyo comunitario.

Pa mas di 40 aña, CEDE Aruba a duna sosten na diferente NGO's di Aruba y na e sector di sociedad civil y voluntarismo. CEDE Aruba tin como meta principal na contribui na un comunidad unda hende di tur edad y conocimiento por sigui desaroya nan mes. E cinco strategianan di CEDE Aruba ta inclui financiamiento, desaroyo di capacidad, networking, abogacia, y desaroyo y implementacion di programa/proyecto. A base di un dialogo amplio den e area di NGO's, CEDE Aruba a crea un Compass Strategico pa 2022-2026.

Universidad di Aruba ta brinda oportunidadnan di educacion mas halto na Aruba pa 35 aña y a contribui den formacion educacional di profesional. E resultado ta unda nos tin awendia profesionalnan cu ta tene posiconnan clave den e economia di Aruba. Actualmente, Universidad di Aruba ta ofrece 7 area principal di estudio, como tambe un base academico, un guia pa studiantenan cu a gradua recientemente for di scol secundario y ta ekipnan cu hermentnan y abilidadnan pa sobresali den e nivelnan halto academico y asina nan por descubri nan vocacion.

E colaboracion proponi ta basa riba e prioridadnan strategico delinea den e Compass Strategico di CEDE Aruba 2022-2026. E prioridadnan aki ta inclui un aporte na institucionnan

stabil, coleccion di data y informacion, programanan den bario, y e desaroyo di un Visitor Charity Program. E colaboracion primordial ta pa provee recursonan di conocimiento, manera stagiaires, estudiante y investigacion saliendo for di Universidad di Aruba.

Adicionalmente, CEDE Aruba lo facilita y contribui na duna oportunidad y experiencia practico na studiantenan, tambe ta duna financiamiento na programanan y entrenamiento di Universidad di Aruba y e Instituto di Bon Gobernacion y Liderazgo, esaki di acuerdo cu e areanan specifico indica den e MoU.

Un otro parti di e fundeshi pa e acuerdo aki a wordo traha durante e tayernan interactivo "Towards integrity in Aruba", organisa pa Universidad di Aruba/Aruba Institute for Good Governance and Leadership den colaboracion cu Stichting Deugdelijk Bestuur Aruba, Saxion Hogeschool, y Hope Aruba. E prome recomendacion den e rapport di National Integrity System (NIS) ta indica cu no tin un 'solucion rapido' pa cambia un sistema di integridad nacional di un dia pa otro. Sinembargo, cualkier pasonan chikito den direccion di reenforza un NIS, ta reenforza otro pilar. E aporte y recomendacionnan presenta durante e tayernan aki a inspira CEDE ARUBA y Universidad di Aruba pa tuma pasonan concreto pa combina forza den interes di futuro di Aruba.

E acuerdo ta pa un periodo di cuater aña. E colaboracion aki lo stimula un relacion fructifero entre CEDE Aruba y Universidad di Aruba, den e meta final di haci un aporte sostenibel na NGO-nan local, sociedad civil y e sociedad Arubano en general.

Ganadonan di Costume Competition 2023 di Stichting Klein Aruba

E mesun anochi cu “Aruba Tourist Carnival Group” tawata lanta na Paseo Herencia, Stichting Klein Aruba a tene un competencia di trahe di fantasia di carnaval. Tawatin trahenan p’e categorianan Headpiece, Shoulderpiece y Bodypiece.

HURADO

E panel di hurado tawata Sandra van der Linden, Jeannice Scheper, Charisma Willems y Trudy Hassell como presidente di Hurado.

RESULTADO

Na final di e anochi, MC Addonsito Croes a anuncia e ganadonan.

Miho presentacion: Staicey Schwengle.

Miho HEADPIECE: Sherri Godet.

Prome finalista: Karyme Acosta.

Miho SHOULDERPIECE: Ana Perez

Prome finalista: Xiandreny Donata.

Miho BODYPIECE: Jaidyleen Tromp.

Staicey Schwengle y Versherinne Albertsz a keda como finalista.

GRADICIMENTO

Stichting Klein Aruba ta gradici VNO, Zaira Orman Maya di Paseo Herencia, Joan Mahendrepersad, cada participante, Tabitah Fecunda di Divi Resorts y Marisol Peña di NTG Dancers. Den 2024 e festival di costume lo t’ey bek.

Dianan 3 pa 5 di october 2023

Aruba ta anfitrión di e Cartagena Convention

Ataca Aruba e gran honor di ta e anfitrión di e conferencia di Cartagena Convention cu ta tuma luga dianan 3 pa 5 di october 2023. Esaki ta e di 20 edicion di e reunion intergubernamental pa e plan di accion pa e programa ambiental di Caribe (IGM20). Durante e mesun periodo aki ta tuma luga e di 17 Conferencia di Partidonan na e Convenio pa e proteccion y desaroyo di e medio ambiente marino di e region di Caribe (COP17). Directie Natuur en Milieu (DNM) tambe lo forma parti di e conferencia di e Convenio di Cartagena.

E evento aki ta e reunion ambiental mas importante di Caribe unda representantenan di gobierno y organisacionnan no gubernamental ta bini hunto pa elabora riba e retonan ambiental y establece solucionnan pa e region di Caribe den su totalidad.

Di e Programa di Medio Ambiente di Nacionnan Uni (UNEP) a bin establece e Programa di Medio Ambiente di Caribe (CEP) na 1981. E programa ta special pa e 'Wider Caribbean Region (WCR)', pues e region di Caribe den su totalidad. Door di e programa aki, ta reconoce e importancia, balor, fragilidad y vulnerabilidad di e ecosistema di e lama den region Caribense, WCR. Den e programa tambe a inclui bestia y mata endemico den e region. Despues cu e paisnan den e region a tuma over e Plan di Accion na 1981 cu a conduci na e desaroyonan positivo, a bin establece e Convenio di Cartagena dia 24 di maart 1983.

E Convenio di Cartagena ta e prome y unico tratado regional obligatorio di su categoria. E convenio ta promove e proteccion y desaroyo di e medio ambiente marino. E Convenio di Cartagena ta ratifica pa 26 pais, miembro di Nacionnan Uni den region di Caribe. E areanan cu e convenio ta cubri ta: e Golfo di Mexico, Mar Caribe y e areanan di e Oceano Atlantico cu ta cerca di e region Caribense.

Kico ta e Convenio di Cartagena?

E Convenio pa e Proteccion y Desaroyo di e Medio Ambiente Marino di e WCR (Wider Caribbean Region) conoci como e Convenio di Cartagena, ta un acuerdo legal regional pa e proteccion di e Mar Caribe.

E Convenio cu a tuma over na Cartagena, Colombia riba dia 24 di maart 1983 a drenta na vigor dia 11 di october 1986. E Convenio ta sosteni pa tres acuerdo tecnico di Protocolnan riba Derame di Petroleo, Areanan di Naturalesa Protegi cu ta e protocol concerning Specially Protected Areas and Wildlife

(SPAW) y protocol tocante fuentenan di contaminacion cu ta un efecto secundario procedente di actividadnan riba tera cu ta drenta lama – protocol concerning Pollution from Land-Based Sources and Activities (LBS).

A tuma over e Protocol di SPAW den Region di Caribe, riba 18 di januari 1990 y a drenta na vigor dia 18 di juni 2000. E Protocol SPAW ta representa e unico acuerdo regional cu ta legalmente obligatorio pa e proteccion y uzo sostenibel di biodiversidad di costanan y bida marino den e Region di Caribe, WCR.

E Protocol LBS cu a tuma over riba dia 6 di october 1999 a tuma lugar na Aruba e tempo ey, y a bay na vigor dia 13 di augustus 2010. Un total di 15 partido cu a yega na un contract. Esaki ta e unico instrumento of acuerdo regional cu ta obliga e paisnan den e Region di Caribe pa pone atencion na y atende e topico di contaminacion marino for di e fuente di actividad.

Kico e Convenio di Cartagena ta enfoca riba dje?

E Convenio ta cubri mayoria aspecto di contaminacion marino pa cu e partidonan cu ta den e acuerdo y tambe tur locual mester tuma over manera medidanan specifico.

E medidanan aki ta inclui prevencion, reducion y/of control di:

- contaminacion di barconan
- contaminacion causa pa dumping
- contaminacion di actividadnan den fondo di lama
- contaminacion di aire
- contaminacion causa pa actividadnan riba tera

{Cont. na siguiente pagina}

{Cont. di pagina anterior}

Paisnan cu ta di acuerdo y ta participante na e Convenio tambe, mester:

- proteha y preserva ecosistemanan y e habitatnan fragil di especienan cu ta cabando, birando mas tiki den cantidad, bou menasa of ta na peligro.
- desaroya plannan tecnico y evaluacion di impacto ambiental di proyectonan di desaroyo.

E Convenio di Cartagena ta traha pa sostene otro convenionan, acuerdonan y compromisonan ambiental global tambe. E conferencia ta un oportunidad importante pa e paisnan di Caribe comparti miho practicanan, desaroya alianzanan, y compromete na actua of tuma accion pa proteha e medio ambiente marino.

Durante e conferencia lo reuni tambe cu stakeholdernan clave di tur e region pa discuti y atende cu/ of enfrenta e retonan ambiental importante pa e region di Caribe.

E Conferencia di e Convenio di Cartagena ta un oportunidad unico pa Aruba profila su mes y demostra compromiso pa cu proteccion ambiental y desaroyo sostenibel. E conferencia tambe ta un oportunidad pa Aruba fortalece su relacion cu otro paisnan di Caribe y pa traha hunto pa crea un futuro mas resiliente y sostenibel pa e region.

Segun e expectativa, e conferencia ta genera beneficio economico pa Aruba, pasobra e ta atrae bishitantenan di rond mundo, specialmente esunnan den Caribe. E conferencia lo duna tambe oportunidad pa negoshinan Arubano demostra nan producto y servicio na un audiencia cu internacional.

Ta invita e publico pa involvi su mes den e Conferencia di e Convenio di Cartagena door sigui e topiconan di conferencia. E organisadonan di e conferencia lo comparti informacion actual di e conferencia riba e website www.unep.org/cep

Dwayne Viotty a gradua como Bachelor den Organization, Governance and Management

Dia 8 di September 2023, Dwayne Viotty a defende su tesis exitosamente y a obtene e titulo di ‘Bachelor of Arts’. E graduado a defende su tesis dilanti di e comision di graduacion cu tawata consisti di sra. Yolanda Richardson, sra. Nadia Dresscher-Lambertus, y sra. Charisse Hoen-Daly. Ademas di e comision di graduacion otro invitadonan p.e. famia y amigonan di Dwayne, docentenan y coleganan di Universidad di Aruba tambe a atende e examen final.

E titulo di Dwayne su tesis ta “Bridging the gap Between Ceasing and Achieving: A research on Financial Support for Underprivileged Students”. Dwayne su investigacion ta enfoca riba e perspectiva cu estudiante di menos recurso tin riba con Universidad di Aruba (UA) a responde riba e situacion financiero precario di estudiante durante e pandemia di COVID. Dwayne a investiga e perspectiva di estudiante di UA riba e maneho y posibel falta di provisionnan financiero pa yuda estudiante cu a enfrente situacionnan dificil durante e pandemia; especificamente e studentenan di menos recurso. Tambe Dwayne a investiga con Universidad di Aruba, ademas di yuda estudiante financieramente, por motiva estudiante di menos recurso pa termina nan estudio no obstante di e retonan financiero cu nan por enfrente.

E obhetivo central di e tesis ta pa enfatisa e necesidad cu tin pa mas ayudo financiero pa e dicho studentenan. Un otro obhetivo ta pa encurasha UA pa evalua e posibilidad pa mas maneho cu ta enfoca riba ayudo financiero cu lo motiva estudiante di menos recurso pa no rindi y pa nan persevera pa termina nan estudio cu alabes ta yuda nan cambia nan situacion social economico.

Durante e proceso di su investigacion, Dwayne a entrevista estudiante cu a atende Universidad durante temporada di COVID y empleado di Universidad di Aruba.

Basa riba e resultadonan di e investigacion, a duna diferente recomendacion. Un di e recomendacionnan ta pa Universidad evalua e posibilidadnan pa crea incentiva cu lo duna bek y motiva estudiante di menos recurso. Otro recomendacion ta pa purba baha gasto di e studentenan dor di uza buki y material digital. Un otro recomendacion ta pa haci posibel pa paga e registracion mensualmente of pa kwartaal.

Ta gradici tur famia y amistad cu a apoya y sostene Dwayne durante su formacion profesional na Universidad. Tambe ta gradici e docentenan di e departamento di OGM y profesional cu a yuda of guia Dwayne como estudiante. Dwayne ta duna un danki special na Julisa Jones, Luciano Milliard, y Yolanda Richardson cu a sa di keda motiva Dwayne durante su estudio pa e yega e final. Tambe ta gradici tur esnan pafo di Universidad di Aruba cu a contribui na un manera of otro na e acontecimiento aki.

Den e reunion organisa pa SIDS durante e Asamblea General di Nacionnan Uni

Prome Minister a splica di e avancen di Aruba riba e Early Warning System

Durante e siman e reunionnan di Asamblea General di Nacionnan Uni #UNGA78 na New York, Prome Minister Evelyn Wever-Croes a atende diferente conferencia, high level events, y reunionnan riba diferente topico relevante pa Aruba. Un reunion hopi importante cu Prome Minister a atende tawata tocante e Early Warning System. E encuentro aki a wordo organisa pa Small Island Development States (SIDS).

Nacionnan Uni ya pa hopi tempo ta encurasha y pone enfasis riba islanan chikito manera Aruba pa pone sistemanan di alerta y aviso tempran pa comunidadnan. Den e conferencia aki, Premier di Sint Maarten, Silveira Jacobs y Premier di Aruba a hiba palabra y Prome Minister a duna informacion elabora riba e avancen di Aruba riba e Early Warning System. Bureau Rampenbestrijding, (BRA), ta trahando riba esaki y Aruba a haya fondo aloca pa implementacion di esaki y na maart 2024 e sistema aki lo ta operacional. Stakeholders tambe ya ta involvi den esaki.

BRA pa hopi tempo a expresa e deseo pa Aruba tin e sistema Early Warning System, cu lo yuda anticipa riba calamidadnan mas tanto posibel. E sistema cientifico aki ta analisa fenomenonnan pa asina yega na conclusionnan y duna avisonan trempan di calamidadnan na caminda. E importancia di esaki ta cu e avisonan aki ta yega tur caminda por lo tanto

e avisonan lo mester bin den tur idioma y forma posibel na Aruba, te hasta ora un persona ta den mondi, y no tin accesibilidad na comunicacion, e tambe por haya e informacion aki. E sistema ta un guia tambe pa haci e proceso di evacuacion mas facil of pa tuma medidanan di precaucion.

E meta ta pa tin mas seguridad y scapa bida di hende y minimalisa e dañonan pa asina haya e forsa pa recupera bek. Esfuersonan ta wordo haci pa logra un Aruba mas resiliente contra cualquier calamidad. Awo, cu a logra fondonan di Union Europeo, esaki ta bira realidad.

Union Europeo ta financia 1.7 milyon Euro pa e Proyecto Early Warning System. Cu esaki, Aruba ta bira un pionero den Caribe, un role model pa otro paisnan den Caribe. Nacionnan Uni ya a stipula cu dentro di 5 aña tur pais den Caribe mester tin un Sistema asina y Aruba ta canando adelanta den esaki mientras cu hopi pais den region ainda no tin e sistema aki.

“Aruba ta avansando y pa otro aña tin e Sistema aki ta completamente operacional y pa despues sigui profesionalisa den esaki. Ta importante pa islanan chikito haya avisonan tempran y ta miho prepara pa scapa tanto bida di hende como posicionnan material”, Prome Minister a expresa.

Minister Thijsen a presencia anochi special pa rehabilitacion di Tula

DEN HAAG – Den teatro Korzo na Den Haag a tuma luga diamars anochi 3 di october un programa special Biba Tula! di grupo di teatro Ketu Koti, den cuadro di e rehabilitacion di Tula. E fecha 3 di October ta alabes e dia cu Tula a wordo ehecuta door di e Gobierno Colonial di Curaçao, 228 aña pasa. E evento a conta cu presencia di Minister Plenipotenciario di Curaçao Carlson Manuel, Minister Plenipotenciario di Aruba mr. Ady Thijsen y Minister Plenipotenciario Suplente di St. Maarten Richard Panneflek.

Na comienso di e programa tabata tin discursonan di e diputado di Den Haag Mariëlle Vavie y Minister Plenipotenciario di Curaçao Carlson Manuel. Den e discursonan a para keto na e momento aki cu Tula ta keda rehabilita y e nificacion di esaki pa historia di Curaçao y tambe di Hulanda.

E programa a consisti di un presentacion cu tabata un caleidoscop di musica, monologo y spirito cu ta conta e storia di Tula: su lucha, su certidumbre y su perseverancia. E monologo tabata den man di Marisa Monsanto y Jörgen UNOM Gario, mientras cu e musica tabata na encargo di fluitista Ronald Snijders y su combo.

Na final di e presentacion Minister demisionario pa Asuntonan di Interior y di Reino Hugo de Jonge a tene un discurso, unda el a indica cu riba e mesun dia aki na Curaçao den presencia di e Secretario di Estado pa Asuntonan di Reino lo tuma luga e rehabilitacion oficial di Tula door di Gobierno Hulandes.

Rollo suizo de chocolate con piel de tigre

Este delicioso rollo suizo de chocolate con piel de tigre combinado con bizcocho de chocolate ligero y crema batida aireada es lo suficientemente impresionante como para ocupar un lugar central en cualquier mesa de postres.

Recipe

TIEMPO PREVIO: 1 hora 39 minutos

HORA DE COCINAR: 21 minutos

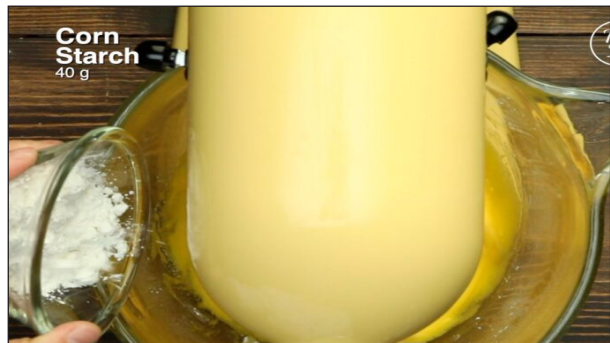

TIEMPO TOTAL: 2 horas

14SERVICIO

Ingredientes:

5,25 onzas. [Pastel en rollo] Yema de huevo
3,5 onzas. [Pastel en rollo] Azúcar
1 cucharadita [Pastel en rollo] sal
1,4 onzas [Pastel en rollo] Almidón de maíz
5 onzas [Pastel de chocolate] Azúcar
10 onzas [Pastel de chocolate] Clara de huevo
1 cucharadita [Pastel de chocolate] Crémor tártaro
4,5 onzas. [Pastel de chocolate] Harina, tamizada
2 cucharaditas [Pastel de chocolate] Polvo para hornear
0,5 cucharaditas [Pastel de chocolate] Sal
3 onzas [Pastel de chocolate] Aceite vegetal
3 onzas [Pastel de chocolate] Leche
1 onza [Pastel de chocolate] Cacao en polvo

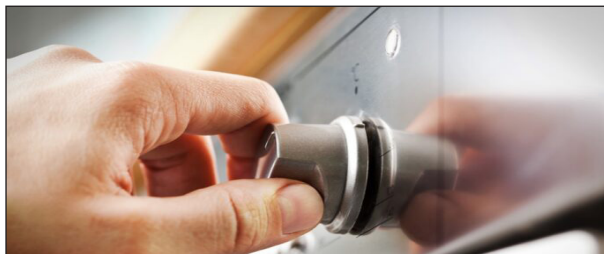

Direcciones:

1 - Hacer el pastel: Precalienta el horno a 425 F. Batir la yema de huevo y el azúcar a velocidad media a alta hasta que el azúcar se derrita. Gire a velocidad baja y agregue sal y almidón hasta que se forme una masa.

2 - Vierta la masa en un molde para hornear grande y poco profundo forrado con papel pergamino, asegúrese de que la masa esté distribuida uniformemente. Hornee a 425 F durante 5 minutos. Fresco por un lado.

3 - Hacer pastel de chocolate:

1) Precaliente el horno a 350F.

4 - 2) Batir la clara de huevo, el azúcar y el crémor tártaro a velocidad alta hasta que se forme un pico firme.

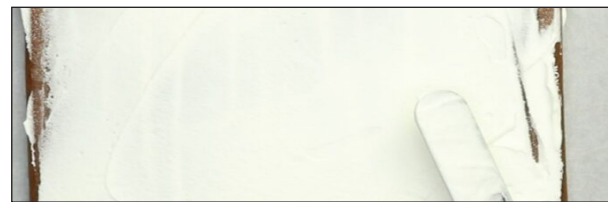

5 - 3) En otro tazón grande, combine la yema de huevo, la leche y el aceite vegetal y mezcle bien, agregue el polvo de hornear, la sal y el cacao en polvo a la mezcla y mezcle muy bien.

6 - 4) Incorpora de la crema a la mezcla de chocolate y luego incorpora el resto de la crema. Mezclar bien.

7 - 5) Vierta la masa de chocolate en un molde para hornear grande y poco profundo forrado con papel pergamino, asegúrese de que la masa esté uniformemente distribuida. Hornee a 350 F durante

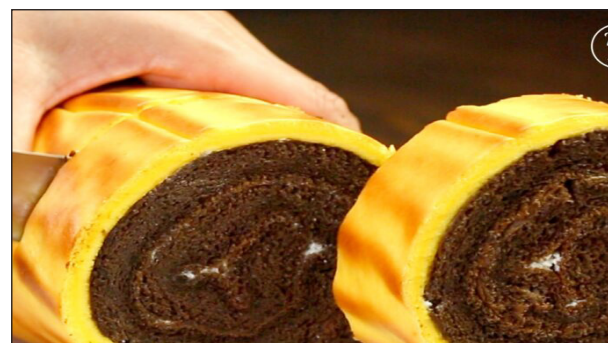

16 minutos. Sacar y enfriar a temperatura ambiente.

8 - 6) Unte una fina capa de crema batida sobre el pastel de chocolate. Enrolle l de un extremo corto al otro. Envuelva papel pergamino alrededor del rollo. Deje reposar durante 15 minutos para formar un cilindro.

9 - 7) Unte una fina capa de crema encima del bizcocho amarillo, ponga el rollo de chocolate en un extremo y enróllelo. Envuelva una capa de pastel amarillo alrededor del pastel de chocolate.

10 - 8) Cortar transversalmente y servir.

11 - 9) ¡Disfrutar!

Fortaleza pa Famia

Pone bo fe den e yiu di Dios

TEMPO ta trabahoso di berdad, cosnan cu nunca hende por a kere ta sosodiendo, hopi a kere cu ciencia y tecnologia por a resolve e asunto pero esey ta resulta cu no, pasobra locual Dios a bisa cu ta bay sosode ningun hende por cambi'e.

Di berdad nos ta bibando manera den dianan di Noe, caminda maldad ta aumenta tur dia, y e unico cos cu mente di hende ta pensa ta maldad y maldad solamente (Genesis 6:5).

Wak rond mundo cuanto politico ta tuma nan retiro, pasobra nan no por wanta e cayente di locual ta na caminda, y hopi ta retira for di politica completamente, y ta laba nan man, pasobra locual tin riba mesa nan no por cumpli cune, pero tin tambe cu ta hopi activo den apoyo na maldad y rebeldia contra Dios.

Si un tempo nos a tende di e cosnan aki, awor nos ta mira nan sosode, y nos ta tende di plan cu hende tin contra hende, con hende kier destrui famia, muchanan, matrimonio, plan pa reduci humanidad, yena mundo cu mentira pa asina maldad por aumenta.

Pa loke ta boso, laga loke boso a tende for di principio, permanece den boso. Si loke boso a tende for di principio keda den boso, boso tambe lo permanece den e Yiu y e den e Tata. Y esaki ta e promesa cu E mes a haci na nos, bida eterno (1 Juan 2:24-25).

Ningun hende no a mira Dios nunca, si nos stima otro, Dios ta permanece den nos, y Su amor ta wordo haci perfecto den nos (1 Juan 4:12).

Nos mester ta prepara pa e avalancha di maldad cu ya ta acercando, y pa mantene nos fe den e Yiu di Dios, pasobra nos fe lo wordo purba di tur manera.

E sistema di mundo ta yena cu falsedad y mentira, cosnan cu ta pinta bon, pero nan tras tin maldad, malicia, inmoralidad, y mas cu tur cos e desviacion for di e boluntad di Dios.

Esun cu tin e Yiu tin e bida: Esun cu no tin e Yiu di Dios, no tin e bida (1 Juan 5:12).

Esun cu kere den e Yiu tin bida eterno, ma esun cu no obedece e Yiu lo no mira bida, ma e furia di Dios ta keda riba dje (Juan 3:36).

Nos ta bisa esaki pasobra hopi lo bay tras di e agenda di mundo, y lubida cu Poder ta di Dios, hopi lo sigui palabra di hende y locual hende ta inventa, gaña y troce e palabra di Dios. Ya caba tin hopi ta proclama cu e palabra di Dios ta anticua, y cu mester haci cierto cambio. P'esey awor mas cu nunca nos Fe mester pertenece den e Yiu di Dios, pasobra solamente pa medio di dj'E nos tin salvacion.

Pa esnan cu ta puro, tur cos ta puro, ma pa esnan cu ta contamina, y cu ta incredulo, nada no ta puro, ma ta bo nan mente como nan consenshi ta contamina. Nan ta profesa cu na ta conoce Dios, ma cu nan hechonan na ta nenga Dios, pasobra nan ta abominabel y desobedecido, y nan no ta sirbi por nada bon (Tito 1:15-16).

Si un hende bini cerca boso y no ta trece e siñansa aki, no ricibie den boso cas, y no yame bonbini, pasobra esun cu ta yame bonbini ta participa den su obra nan malo (2 Juan 10).

Ta hopi spiertoamento tin di parti di nos Señor pasobra di berdad nos ta biba den tempo trabahoso (2 Timoteo 3:1-9).

Sinceramente, Pastor Marcel Balootje

"Señor ta mi wardador, mi'n tin falta di nada
Den cunucu di yerba berde e ta ponemi sosega.
E ta hibami na awa frankil,
Pa mi bolbe haña forsa".
Salmo: 23

Employee Benefit Program HOH SUN SHARES Becomes a Reality

“**HORACIO** Oduber Hospital, one of the largest organizations on our island with no fewer than 1,100 employees, focuses on caring for patients and clients, but also on taking care of our employees and the environment. Taking into account one of HOH’s foundations is to be financially sustainable, a Memorandum of Understanding (MOU) was recently signed with the local company B-Energy to offer solar panels as a benefit to our employees. This is a significant moment where the employee program called HOH SUN SHARES is finally introduced.

A few months ago, an internal survey was conducted to gauge interest among employees in acquiring solar panels for their homes. Due to the tremendous responses received, the management team began negotiations with various local companies that offer solar panels. Finally, the company that came up with the best offer for HOH and its employees turned out to be the local company B-Energy.

This is an extremely important and laudable moment because it not only positions HOH as an employer providing benefits at a better price and lower interest, but also shows

HOH’s commitment to the environment. The HOH Board of Directors recently surprised the entire HOH team with this tremendous news, which has been in the works for a long time to make it a reality.

Now, every colleague at HOH who is interested in having their own solar panels at home can have this thanks to their employer at a better price and lower interest through the internal program HOH SUN SHARES. This renewable energy source will save colleagues energy, reduce electricity bills, be beneficial for the environment, and increase the value of their homes.

Now that HOH has signed this agreement with the local company B-Energy, information sessions will start in October to introduce this program to all employees.

The Hospital Board of Directors, together with the management team, is extremely proud of this step taken to add more benefits for our employees, making HOH a professional company that cares for patients and clients, as well as our employees and the environment.

CEDE Aruba and the University of Aruba Forge a Significant Collaboration

CEDE Aruba, our local organization dedicated to social and sustainable development, has signed a Memorandum of Understanding (MoU) with the University of Aruba. The primary goal of this agreement is to establish a collaboration in the fields of education and community development. For over 40 years, CEDE Aruba has been providing support to various NGOs in Aruba and the civil society and volunteerism sector. CEDE Aruba's main goal is to contribute to a community where people of all ages and backgrounds can continue to develop themselves. CEDE Aruba's five strategies include financing, capacity development, networking, advocacy, and program/project development and implementation. Through extensive dialogue within the NGO sector, CEDE Aruba has created a Strategic Compass for 2022-2026.

The University of Aruba has been offering higher education opportunities in Aruba for 35 years and has contributed to the educational development of professionals. The result is a pool of professionals holding key positions in Aruba's economy. Currently, the University of Aruba offers seven main areas of study, along with an academic foundation, a guide for recent high school graduates, and teams equipped with the tools and skills to excel at higher academic levels, allowing them to discover their vocations.

The proposed collaboration is based on the strategic priorities outlined in CEDE Aruba's Strategic Compass 2022-2026. These priorities include contributions to stable institutions, data and information collection, neighborhood programs,

and the development of a Visitor Charity Program. The primary collaboration is to provide knowledge resources, such as interns, students, and research originating from the University of Aruba. Additionally, CEDE Aruba will facilitate and contribute to providing practical opportunities and experience for students, as well as provide funding for programs and training at the University of Aruba and the Institute for Good Governance and Leadership, in line with the specific areas indicated in the MoU.

Another part of the foundation for this agreement was laid during the interactive workshops "Towards Integrity in Aruba," organized by the University of Aruba/Aruba Institute for Good Governance and Leadership in collaboration with the Foundation for Good Governance Aruba, Saxion University of Applied Sciences, and Hope Aruba. The first recommendation in the National Integrity System (NIS) report indicates that there is no 'quick fix' to change a national integrity system overnight. However, any small steps towards strengthening an NIS reinforce other pillars. The contributions and recommendations presented during these workshops inspired CEDE ARUBA and the University of Aruba to take concrete steps to combine their strengths in the interest of Aruba's future.

The agreement spans a four-year period. This collaboration will foster a fruitful relationship between CEDE Aruba and the University of Aruba, with the ultimate goal of making a sustainable contribution to local NGOs, civil society, and Aruban society as a whole.

Minister Ursell Arends:

Are you a responsible pet owner?

ON a day dedicated to animals, we ask the question: Are you a responsible pet owner? Are you in compliance with our Pet Law? Do you take care of your pet's health? Have you spayed/neutered and microchipped your pet? Is your pet part of your family? These are fundamental questions that every responsible pet owner should answer with a YES!

Today, the Ministry of Transportation, Integrity, Nature, and Senior Affairs, along with the Animal Control Center, is launching a campaign to raise awareness about responsible pet care. During this campaign, we will provide a lot of information on various topics such as the Pet Law, pet health care, spaying/neutering, microchipping, euthanasia, and information about our local animal welfare organizations. These are crucial pieces of information that every responsible pet owner should be aware of.

In recent years, we have seen an increase in the number of stray dogs and cats on our streets. This is regrettable because the root cause of this problem is irresponsible pet owners who acquire pets without the means to care for them and then abandon them on the streets.

Dogs and cats are domestic animals that rely 100% on their owners, and when you abandon them, they lead a life of cruelty, suffering, and pain. Moreover, they will continue to reproduce, exacerbating the issue we face today. This is a problem that affects us all on this island, and it is essential to realize that a change in our mindset is necessary to have a positive impact on the current situation.

In Aruba, we have many organizations that work tirelessly to rescue animals

from the streets every day. However, after many years of rescuing stray animals, most of them have reached their maximum capacity. This means that they cannot assist the community as often as they used to, as they are already filled with dogs and cats they rescued from the streets. What's impressive is that despite these organizations' efforts to help and rescue our street animals, our local population does not frequently adopt from these organizations. As a result, these organizations are left with the majority of the dogs and cats they rescue. Due to this, we have recently seen many organizations impose a temporary halt on

accepting more animals into their care.

Before you consider getting a dog or cat, ask yourself this question: Am I a responsible pet owner? Can I provide food and clean water every day? Do I have a safe and loving home for them? Can I afford their healthcare costs every month? Can I afford to spay/neuter and microchip them? If you answer YES to these questions, then you are a responsible pet owner.

The problem of pet overpopulation is significant, but together, as a conscious community, we can give our pets the lives they deserve! Let's all strive to be responsible pet owners.

Coast Guard Welcomes a New Deputy Director

AS of October 2nd, the Coast Guard for the Dutch Caribbean has a new Deputy Director, Mrs. Joëlle De Jong-Mercelina. The new Deputy Director will be responsible for the execution of tasks within the Coast Guard and the internal management of the Coast Guard, effectively leading the organization on a daily basis.

Mrs. De Jong-Mercelina is well-suited for this role, thanks to her impressive career, including her previous position as Deputy Secretary-General at the Ministry of Justice in Curaçao. Her extensive knowledge of law enforcement, international law, maritime law, and her background in foreign relations can be applied effectively at the Coast Guard.

In addition to this, she served as an alternate member of the Presidium of the Coast Guard Commission on behalf of Curaçao and has experience as a former lecturer in International Public Law at the University of the Dutch Caribbean/Curaçao. She is also a former member of the VKC 'Vrijwilligerskorps' of the Dutch Caribbean. Joëlle is the first woman to take on the role of Deputy Director at the Coast Guard (PDKW). The Coast Guard extends a warm welcome to Joëlle De Jong-Mercelina and wishes her great success in her new role.

Pieter Omtzigt Reveals NSC Candidate List, Focusing on Expertise and National Representation

PIETER Omtzigt, the leader of the newly formed Nieuw Sociaal Contract (NSC) party, has revealed a list of 44 candidates who will be contesting the upcoming general election in November. Omtzigt emphasized that he carefully selected these candidates to represent the entire Netherlands, including the Caribbean islands, with the aim of achieving better governance and national security.

He founded the NSC party a month ago, pledging to restore trust in politics and enhance government accountability. Currently, NSC is in a neck-and-neck race with the right-wing Liberal VVD in opinion polls, with around 17% of the vote.

Omtzigt is still finalizing the party's manifesto, which is set to be published at the end of October, just over three weeks before the election. While most of his policies have been kept under wraps, he hinted at proposals like capping immigration at 50,000 new arrivals annually, making modest increases to the minimum wage, and simplifying the Dutch system of tax breaks.

The list of NSC candidates includes individuals with extensive government experience, such as judges, civil servants, and even an ambassador. It also features those with "life experience" related to government affairs. For instance, Annemarie Heite, whose house was damaged by gas-related earthquakes in Groningen and who now works on coordinating the restoration operation, is among the candidates.

Sandra Palmen, a civil servant who wrote a crucial memo in 2017 advocating for government compensation for working

parents wrongly accused of childcare support fraud, holds the fifth position on the list. Omtzigt and Socialist Party MP Renske Leijten played pivotal roles in uncovering the scandal associated with this issue, leading to a parliamentary committee's damning report and the resignation of Mark Rutte's third cabinet in January 2021.

While there was speculation that Omtzigt would recruit several of his former CDA colleagues, only a handful appear on the list. His spokeswoman, Nicolien van Vroonhoven, holds the second position, and former VVD MP Folkert Idsinga, a financial affairs specialist, is also on the list.

The third position is occupied by Judith Uitermark, a criminal court judge and former CDA councilor, who highlighted the need for a government that prioritizes people amid the growing complexity of society and rules. Casper Veldkamp, a member of the board of directors at the European Bank for Reconstruction and Development, takes the fourth spot, while Rosanne Hertzberger, a microbiologist and columnist for NRC newspaper, is in the 17th position.

Omtzigt emphasized his selection of candidates with expertise in politics or relevant policy areas, stating that real change can only occur with individuals who thoroughly understand the workings of the system.

While Omtzigt has not yet named a potential prime minister candidate for NSC, polls indicate that the party may become the largest after the election. However, Omtzigt has ruled himself out for the role, focusing instead on completing the party's manifesto.

World Cup 2030:

Spain, Portugal, Morocco to Host Historic Multi-Continental Tournament

IN an unexpected twist, the FIFA World Cup in 2030 is poised to expand across three continents, with Morocco, Spain, and Portugal clinching the rights to host the 48-team tournament. This historic choice represents a significant departure from the norm, as it will be the first time the World Cup spans multiple continents.

The announcement came after a virtual meeting of the FIFA council on Wednesday. However, it's crucial to emphasize that the ultimate confirmation of this decision hinges on a vote involving all 211 FIFA members in the upcoming months of the following year.

This development follows months of speculation and intense lobbying by various continental confederations vying for the prestigious hosting rights. The winning bid, a collaborative effort between UEFA and the African federation CAF, initially contemplated Ukraine's inclusion as a host nation, signifying solidarity amid ongoing conflicts. Nevertheless, it later emerged that Ukraine's involvement did not materialize in the final proposal.

The joint proposal from Morocco, Spain, and Portugal had been the frontrunner for hosting the 2030 World Cup, underscoring the shared commitment of UEFA and CAF to bring this ambitious multi-continental event to fruition.

In contrast, South America, represented by Uruguay and Argentina, alongside Chile and Paraguay, had been expected to forge a competing bid. Additionally, there had been discussions about another cross-continental endeavor, potentially involving Greece, Egypt, and Saudi Arabia.

FIFA's decision to award the 2030 World Cup to multiple continents represents a significant departure from the traditional tournament format. Consequently, the 2034 World Cup will be hosted by a country or countries within the Asian or Oceania confederations.

Saudi Arabia has already confirmed its intent to bid for the 2034 tournament and is considered a formidable contender. Australia, possibly in partnership with Indonesia, is also expected to express interest in hosting. Furthermore, China, which once aspired to host the World Cup by 2030, may consider entering the competition.

This decision underscores FIFA's dedication to rotating

World Cups among various confederations. While the UEFA/CAF bid was favored for 2030, the South American confederation, CONMEBOL, has not hosted a World Cup since 2014. They were eager to commemorate the centenary of the inaugural World Cup held in Uruguay in 1930. As soccer enthusiasts worldwide eagerly await the definitive confirmation of this groundbreaking choice, the prospect of a multi-continental World Cup in 2030 promises to be an exhilarating and unparalleled chapter in the annals of the sport.

A composite advertisement for 'TODOMAR'. The top section is split into two panels: 'APPAREL' on the left showing sunglasses, a red cap, and a green shirt; 'BOAT ACCESSORIES' on the right showing various boat equipment. The middle section features the 'TODOMAR' logo with a life preserver and a propeller. Below the logo is a social media bar with Facebook, Twitter, and Instagram icons, all with the handle '@TodomarAruba', and a phone number '+297 585 0555'. The bottom section is split into two panels: 'FISHING TACKLE' on the left showing fishing gear like a reel and lure; 'FIBERGLASS PRODUCTS' on the right showing various containers and materials.

Royce Lewis:

A Twin's Heroic Journey Ignites Hope in Historic Playoff Victory

IN a remarkable twist of fate, the 2030 MLB Playoffs have seen a resurgence from the Minnesota Twins, thanks to their rookie sensation, Royce Lewis. This young talent, who has faced a series of setbacks, has emerged as the beacon of hope for the Twins after a cathartic two-homer performance.

Time and again, Royce Lewis has expressed his unwavering desire to be a part of the Minnesota Twins, regardless of the challenges he's faced. His journey to the MLB, which began in 2022, was marked by five years of perseverance after being the top pick in the MLB Draft. He navigated an unpredictable minor league career, the lost 2020 season, and a torn ACL in 2021. When he finally made his MLB debut, he harbored dreams of showcasing his skills, enjoying the game, and contributing to victories.

Even when his availability for the AL wild-card series against the Toronto Blue Jays was in doubt due to a hamstring injury, Lewis's commitment to the team shone through. He expressed his willingness to do whatever it took, whether as a designated hitter or a cheerleader, to support his teammates without becoming a hindrance.

As fate would have it, Lewis exceeded all expectations. In Game 1 of the playoffs, the 24-year-old rookie notched two home runs in his first two at-bats, electrifying the Twins' lineup and securing a 3-1 victory by driving in all three runs. This remarkable performance shattered the dark clouds of injuries and postseason disappointments, ending the Twins' 18-game losing streak in the playoffs.

This adversity extended to other key players like Byron Buxton, Carlos Correa, and manager Rocco Baldelli, all dealing with their own share of setbacks. The Twins, despite boasting a trio of elite talents in Lewis, Buxton, and Correa, have seldom witnessed these stars all fully healthy at the same time. Surprisingly, Lewis, with just 58 games played, registered the highest WAR among this talented trio during the 2023 regular season.

The Twins' success in the 2023 season can be attributed to their revamped starting rotation and contributions from lesser-known players like Willi Castro, Edouard Julien, and Matt Wallner. While Lewis underwent MRIs and recovery on a

stationary bike, his teammates rallied behind him, clinching their first playoff berth since 2020.

For Lewis and starting pitcher Pablo Lopez, who had never played in a playoff game, the significance of breaking the franchise's 18-game postseason losing streak was immense. They felt the collective desire of the Target Field crowd, yearning for a triumphant moment.

Lewis, relatively inexperienced in the designated hitter role, sought guidance from Byron Buxton on how to stay prepared. He reveled in the excitement and nerves of the game, describing it as the most thrilling experience of his life.

With two monumental home runs off Kevin Gausman, Lewis not only lit up the scoreboard but also symbolically dispelled the gloom that had lingered over the Twins. Becoming the 10th player ever to hit two homers in his first MLB postseason game added to his growing list of accomplishments, which includes five grand slams in his young career and homering in his debut as a professional.

While two home runs, a defensive gem, and a single playoff victory can't erase the painful memories of the past or recover lost time, Royce Lewis has illuminated the Twins' future with a brighter and lighter outlook. He has rekindled the team's belief in their potential and the limitless possibilities that lie ahead.

Transgender-Inclusive Swimming Races Abandoned Due to Lack of Entries

THE World Cup swimming races that were designed to accommodate transgender competitors have been canceled due to a lack of entries. These open category events, including 50 and 100-meter races across all swimming strokes, were scheduled to be a part of the competition in Berlin starting on Friday.

World Aquatics (WA) announced that no entries were received for these events. However, WA mentioned that the working group responsible for open category races would explore the possibility of including them in Masters events in the future. They also stated that they would continue to engage with the aquatics community on this matter.

In response to this development, former British Olympic swimmer Sharron Davies, who has been critical of trans-

gender women competing in women's sports, commented on social media, saying, "If trans women aren't going to compete against females and gain a physical advantage, they're not interested!"

Swimming's governing body, previously known as FINA, had voted last year to allow individuals who had completed their transition by the age of 12 to participate in elite women's competitions. This decision faced criticism for its impracticality due to age restrictions in many countries.

The governing body implemented its "gender inclusion policy" during the world championships in Budapest in June of last year. Prior to this policy, transgender competitors were prohibited from participating in major events like the Olympics and world championships.

Alistair Overeem Ends His Long Combat Sports Career and Ventures into Politics

“ALISTAIR Overeem Ends His Prolonged Career in Combat Sports and Shifts Towards Politics,” he confirmed in an interview with Panorama. The 43-year-old Dutch fighter will be a list pusher for BVNL, the party led by Wybren van Haga.

Overeem is an icon in the world of combat sports. He began his career as a kickboxer and achieved his greatest success in 2010 by winning the World Grand Prix in the renowned K-1. Throughout his career, he defeated prominent fighters such as Badr Hari, Peter Aerts, Gökhan Saki, and Tyrone Spong.

Later, Overeem transitioned to the UFC, the most prominent organization in mixed martial arts (MMA). Although he never won the title there, he did manage to become a champion in organizations like Strikeforce and Dream.

Over two years ago, Overeem returned to kick-boxing by signing with GLORY. Initially scheduled to face Rico Verhoeven, he had to withdraw from the fight against the world champion due to a back injury.

At the end of last year, he faced Badr Hari at the GelreDome, where Overeem won but was later disqualified due to doping use. Since then, the experienced Dutchman has not fought.

Overeem is now shifting his focus to politics and holds the 41st position as a list pusher for BVNL. He has indicated that if he receives sufficient votes, he will become a part of the Parliament.

Addressing the Menace of AI Deepfakes:

Are Social Media Platforms Ready? Asks MrBeast

“**ARE** Social Media Platforms Prepared to Combat the Rise of AI Deepfakes?” Asks Jimmy Donaldson (MrBeast) on X, formerly Twitter. “This is a serious issue.” Deepfakes are AI-generated images that replicate real individuals, and these images can appear highly convincing, having even led to legal cases. In the Netherlands, a 39-year-old man is currently on trial for creating fake pornography using deepfake images of presenter Welmoed Sijsma.

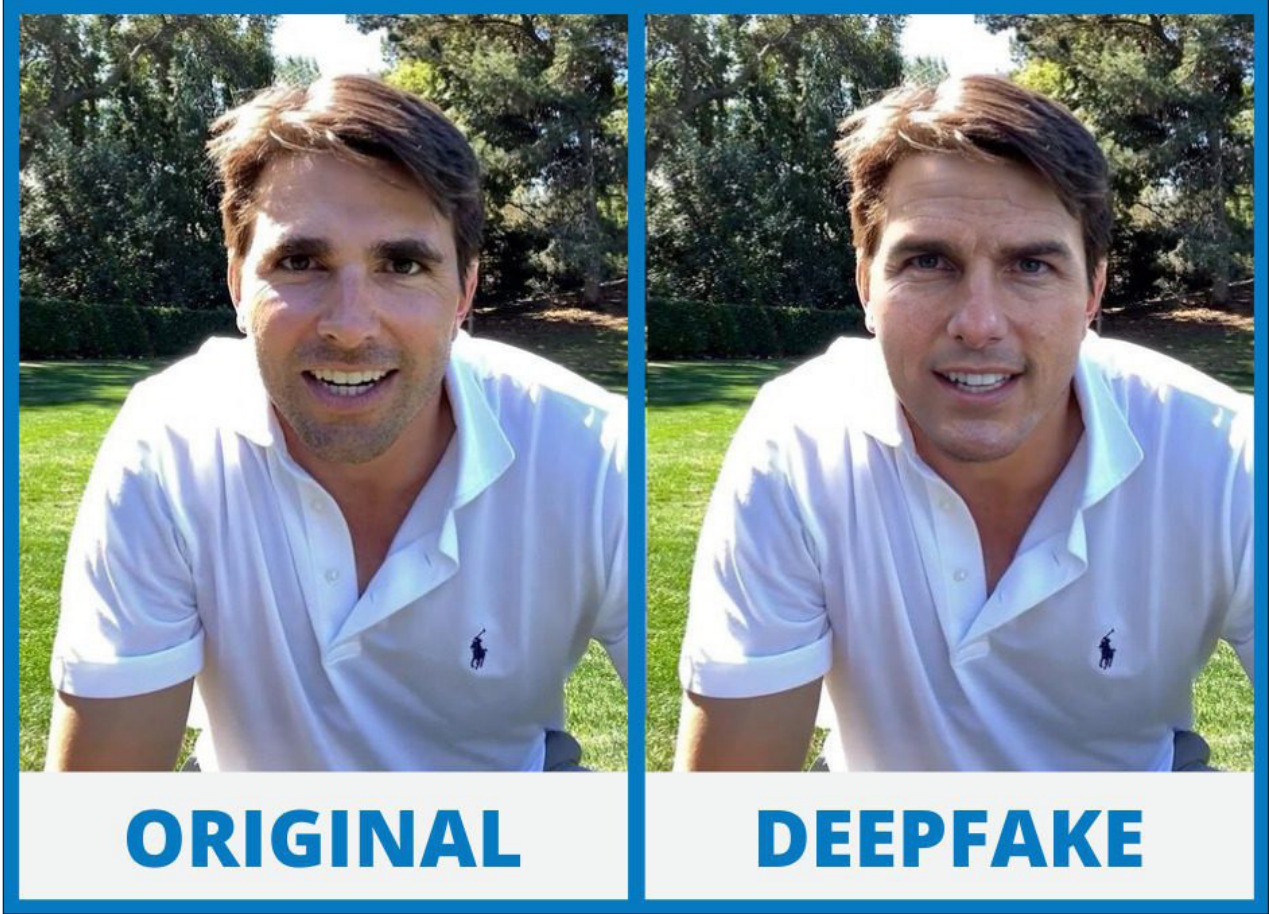

Highly Convincing

MrBeast gained fame through his YouTube videos in which he gives away cars, houses, and cash prizes. The fact that the deepfake video seems to offer a similar service makes it even more convincing, as reported by the BBC. The TikTok account where the video was shared has since been removed from the platform. Earlier this week, Tom Hanks posted a warning on his social media profiles about a deepfake advertisement for dental insurance. “I have nothing to do with this,” he wrote alongside a photo of himself.

The use of famous individuals in deepfake videos has been ongoing for some time. In March of last year, a video of Ukrainian President Zelensky surrendering to the Russians was circulated on Facebook. The video was ultimately removed by Facebook’s parent company, Meta.

Warnings

Increasingly, tech giants and politicians are calling for regulation of arti-

ficial intelligence. During a summit in Japan in May of this year, the G7 ministers, representing seven wealthy nations including the United States and Germany, issued a joint statement emphasizing the need for rules governing AI development.

They highlighted the importance of maintaining an “open and enabling environment” for technology. The rules should focus on intellectual property rights, transparency, and combating disinformation.

Artificial Intelligence (AI):

A Transformative Force

ARTIFICIAL Intelligence (AI) is rapidly emerging as a formidable force poised to revolutionize numerous industries across the globe. Its profound impact promises to reshape the way businesses operate, offering a spectrum of benefits ranging from heightened efficiency and productivity to fostering innovation and driving forward substantial change.

In the realm of healthcare, AI stands as a beacon of transformation. Its capabilities are expediting the diagnostic process, delivering more precise and rapid assessments, predicting potential disease outbreaks, and tailoring individualized treatment protocols.

Beyond this, AI plays a pivotal role in the intricate world of drug discovery and development, propelling medical science into uncharted territories.

In the financial sector, AI is instrumental in myriad ways. From vigilant fraud detection mechanisms to the nuances of algorithmic trading, risk assessment, and the advent of customer service chatbots, it empowers financial institutions to make data-driven decisions with precision. Moreover, AI is a stalwart ally in managing portfolios efficiently and navigating the intricate terrain of the financial landscape.

Retail, too, is undergoing a profound transformation under the influence of AI. It has the ability to elevate the shopping experience by crafting personalized recommendations, optimizing inventory management, and projecting demand patterns with precision. In addition, AI fuels the domain of customer support with the advent of chatbots, offering instantaneous assistance to patrons.

In the manufacturing sector, AI-driven automation stands as a key pillar, enhancing production processes, bolstering quality control mechanisms, and introducing predictive maintenance practices. It streamlines supply chain management, ushering in cost-effectiveness and operational excellence.

Transportation, another bastion of innovation, finds AI at the helm. It fuels the concept of autonomous vehicles, revolutionizes traffic management, and charts optimal routes, while also ensuring the proactive upkeep of vehicles and infrastructure.

Education, too, benefits from AI's capabilities, particularly

in personalized learning initiatives, adaptive assessments, and intelligent tutoring systems. Harnessing data analysis, it refines educational outcomes by tailoring pedagogical strategies.

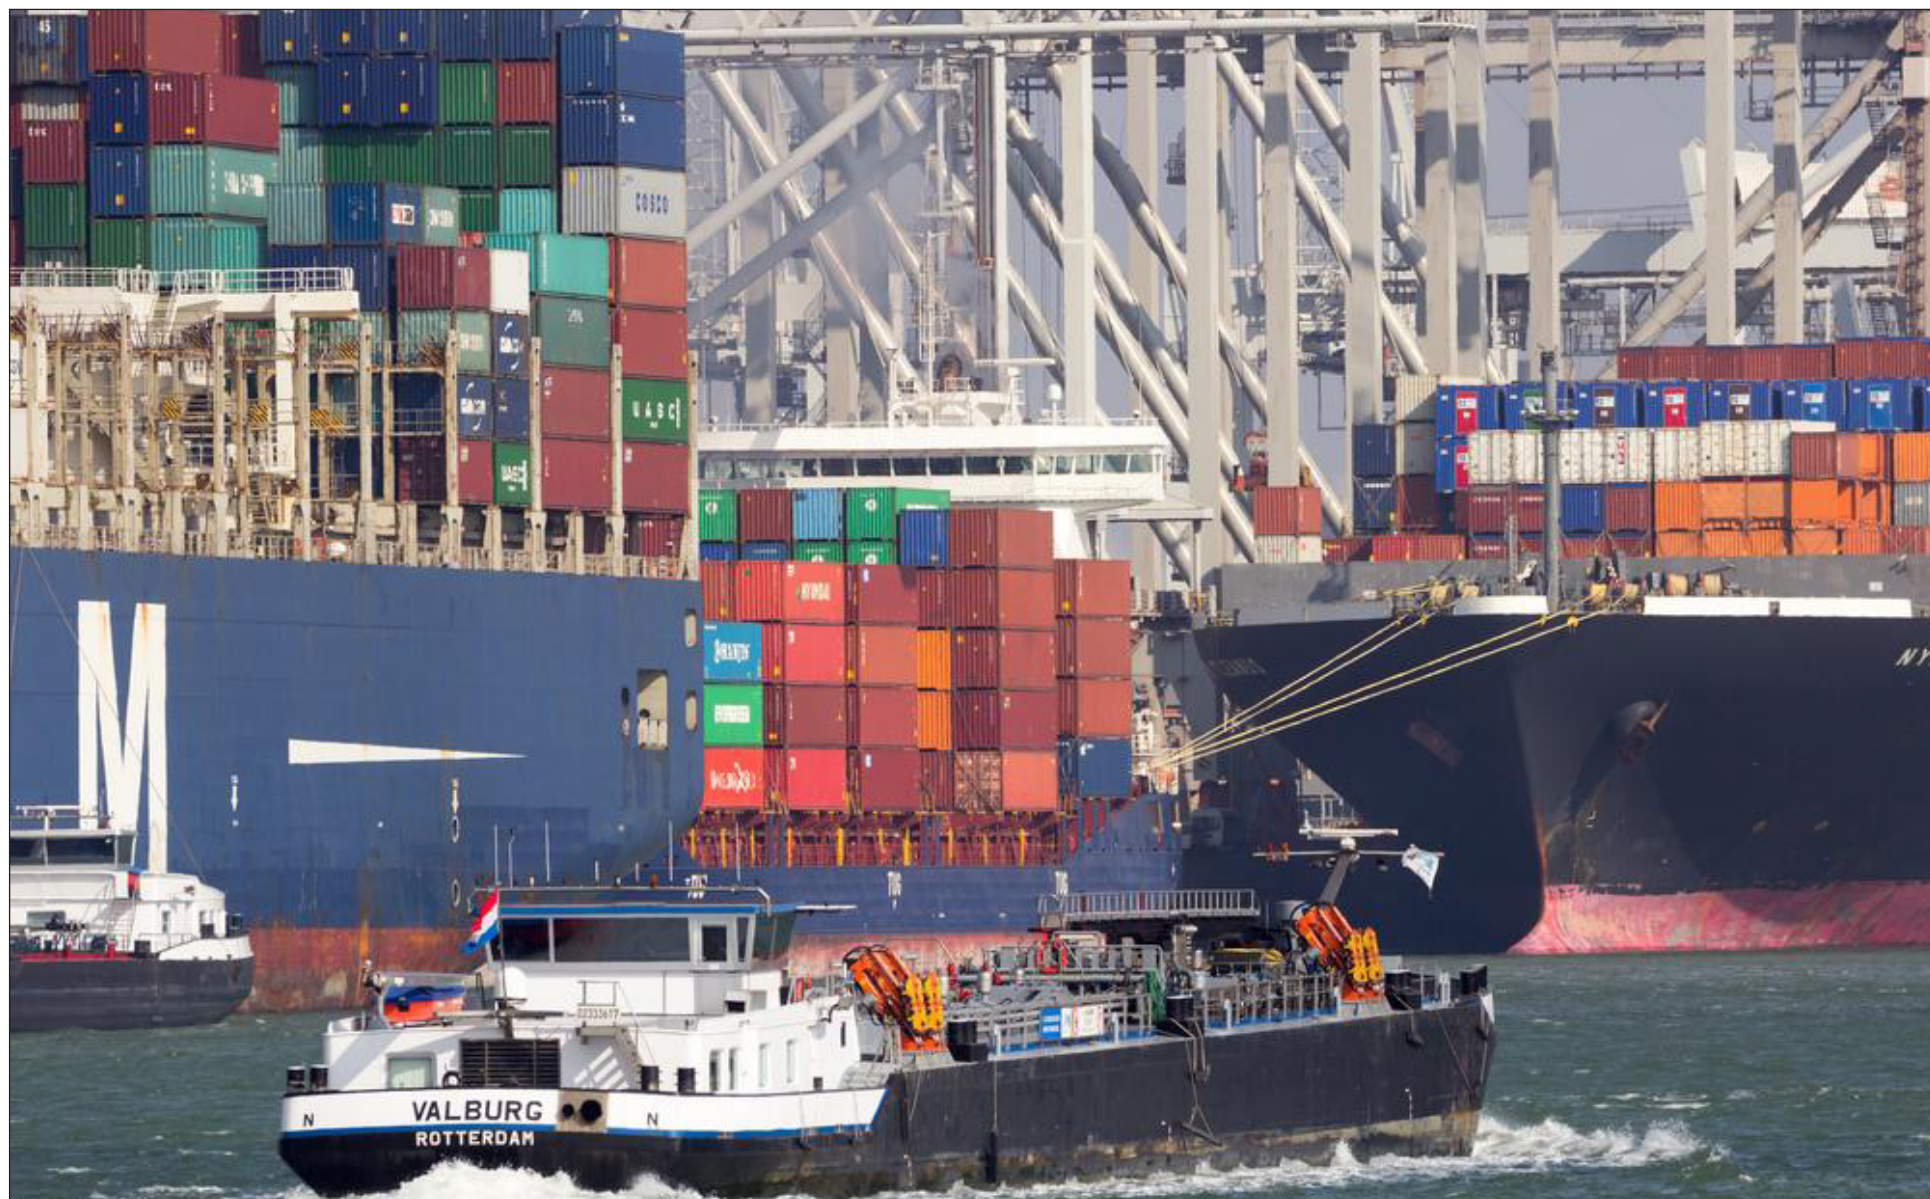

In the energy sector, AI serves as an invaluable resource for optimizing energy consumption, managing the grid with precision, and forecasting maintenance needs. Furthermore, AI plays a prominent role in the sphere of renewable energy, contributing significantly to the generation and distribution of sustainable power.

From agriculture to insurance, legal services to marketing and advertising, AI is pervasive, enhancing processes, reducing costs, and augmenting decision-making. Its reach extends into the entertainment industry, real estate, public safety, environmental conservation, and even the realm of space exploration, where it aids in autonomous navigation, data analysis, and robotics for ambitious missions.

This is but a glimpse into the profound transformations catalyzed by AI across diverse sectors, as its capacity to analyze vast datasets, automate tasks, and furnish data-driven predictions renders it an indomitable force of innovation and transformation.

The relentless evolution of AI ensures that its sphere of influence will continue to expand, ushering in new horizons of possibility across countless industries.

Imports from Russia to Dutch Ports Drop Sharply After Ukraine Invasion

IMPORTS from Russia to Dutch ports saw a significant decline last year following the Ukraine invasion, according to the latest data from the Dutch statistics agency CBS.

While Russia remained the largest source of imports, the total quantity decreased by 32%.

Meanwhile, the total volume of goods loaded and unloaded in Dutch ports increased by 1.2%, largely due to rising imports from the United States.

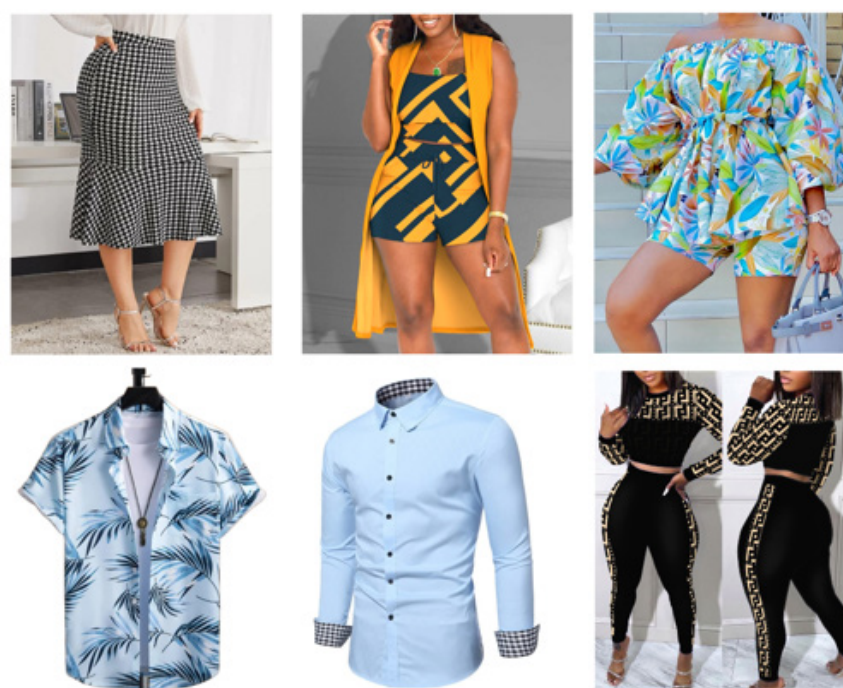

Imports of liquid gas from the US surged by 98%, as European nations sought alternative sources to Russian pipeline gas.

This year's data is expected to confirm that the US has surpassed Russia as the main exporter of goods to Europe via the Netherlands, driven by stricter EU sanctions on Russian oil and gas imposed in December 2022.

In total, 433 million tons of goods were unloaded in Dutch ports in 2022, marking a 4.3% increase from the previous year, while the amount of goods loaded onto vessels declined by 8.8% to 189 million tons.

Imports of wet bulk goods, including oil and natural gas, grew by 8.8%, while dry bulk goods like coal increased by

4.3%. However, imports via shipping containers decreased by 7.2%.

The Economics of Green Energy:

Debunking the Notion of Inherent Affordability

IN recent years, the global energy landscape has witnessed a significant shift towards sustainable and eco-friendly sources, often collectively referred to as green energy. While these sources, including solar, wind, and hydropower, offer undeniable environmental advantages, there exists a prevalent misconception that green energy is inherently cheap. In this article, we explore why green energy does not always equate to lower energy costs, shedding light on the complexities behind this evolving industry.

1. The Initial Capital Investment:

One prominent factor contributing to the notion that green energy is not always economically feasible is the substantial capital investment required for its implementation. The establishment of infrastructure for solar panels, wind turbines, and hydropower necessitates considerable financial outlay, encompassing design, manufacturing, installation, and ongoing maintenance expenses. This significant upfront cost can discourage both individuals and businesses from readily adopting green energy solutions.

2. The Role of Technology and Storage:

Green energy sources, particularly solar and wind power, are inherently intermittent, dependent on variables such as weather conditions and daylight hours. To render green energy reliable, supplementary technologies, such as energy storage systems exemplified by batteries, become a requisite. These technologies introduce their own set of expenses, augmenting the overall investment involved in the pursuit of green energy.

3. Geographical Location and Infrastructure:

The efficacy of green energy sources is inherently geographically dependent. For instance, solar panels thrive in regions graced with copious sunlight, while wind turbines flourish in locales marked by consistent wind patterns. Establishing the requisite infrastructure and adapting it to specific geographical conditions can amplify the costs associated with green energy, rendering certain areas less economically conducive to its adoption.

4. Navigating Energy Transition and Policy Considerations:

The transition from conventional, fossil fuel-based energy systems to green energy necessitates intricate regulatory and policy adjustments. Governments may find themselves compelled to invest in substantial grid upgrades and infrastructural enhancements to facilitate the seamless integration of green energy sources. These transitional costs can inadvertently precipitate temporary hikes in energy prices

during the migration towards green energy.

5. Economies of Scale:

The fossil fuel industry, owing to its decades-long existence, has benefited from the realization of economies of scale and the establishment of an extensive, well-developed infrastructure. In contrast, the green energy sector is still relatively nascent and may not have yet attained the same degree of efficiency and cost-effectiveness. However, as the green energy industry matures and scales up, a natural progression entails reductions in associated costs.

6. The Significance of Research and Development:

Ongoing research and development initiatives are paramount in advancing the efficiency and cost-effectiveness of green energy technologies. These endeavors, while crucial for future progress, necessitate funding which, in turn, can impact the affordability of green energy products and services.

7. The Externalities of Fossil Fuels:

It is imperative to account for the external costs associated with fossil fuel utilization, encompassing air and water pollution, public health ramifications, and contributions to climate change. While these costs may not be directly manifest in energy pricing, they carry substantial economic and societal consequences.

In summation, the misconception surrounding the affordability of green energy necessitates correction. The transition to green energy may indeed involve higher initial costs and intricacies, yet it also embodies the promise of a sustainable future. As technology advances, economies of scale are achieved, and policy frameworks become increasingly supportive, the cost-effectiveness of green energy is poised to improve. Therefore, the path towards environmental preservation and energy security may mandate short-term investments for the realization of enduring benefits.

The Mystical World of Crystals and Gemstones: Unveiling Their Role in New Age Spirituality

CRYSTALS and gemstones, long revered for their captivating beauty and rarity, have transcended their conventional status as jewelry adornments to become pivotal elements in the world of New Age Spirituality. Enthusiasts of this spiri-

tual movement believe that these exquisite stones possess unique energies and healing properties, paving the way for their integration into various spiritual practices. In this illuminating news article, we embark on a journey through the mesmerizing realm of crystals and gemstones within the New Age paradigm, uncovering their significance and the roles they play in meditation, energy clearing, and spiritual healing.

Harnessing Ancient Wisdom: At the core of New Age Spirituality is an unyielding reverence for the ancient wisdom of the Earth. Crystals and gemstones are seen as repositories of this age-old knowledge, each carrying its distinctive energy and vibrations, which can be harnessed for a multitude of purposes.

Meditation with a Crystal Companion: For those on a spiritual quest, meditation is a fundamental practice. Crystals are often employed as companions in this inward journey. Enthusiasts select crystals based on their individual properties, allowing them to amplify specific intentions and experiences during meditation.

Energy Clearing and Balancing: New Age practitioners firmly believe that crystals possess the power to clear and balance energy fields. This is accomplished by placing specific stones on or near the body, where they purportedly absorb and transmute negative energy into positive vibrations, fostering a harmonious and balanced state of being.

Spiritual Healing and Alignment: Crystals and gemstones are considered potent tools for spiritual healing. Different stones are associated with various aspects of well-being, such as emotional healing, chakra alignment, or pain relief. New Age healers often incorporate crystal therapy into their practices to facilitate healing on physical, emotional, and spiritual levels.

A Multitude of Gemstones: The world of crystals and gemstones is remarkably diverse, with each stone possessing its distinct properties and energies. From the soothing prop-

erties of amethyst to the grounding effects of hematite and the protective aura of black tourmaline, there is an extensive selection to choose from, catering to the unique needs and intentions of each practitioner.

Customized Crystal Grids: Advanced practitioners craft intricate crystal grids, meticulously arranging stones in geometric patterns. These grids are believed to amplify the stones' energies and intentions, resulting in a concentrated and heightened vibrational field.

The Science Behind the Sparkle: While the New Age perspective on crystals is deeply rooted in spirituality, the scientific community also acknowledges the unique properties of these precious minerals. Crystals are celebrated for their ability to store, transmit, and amplify energy, properties that have practical applications in various industries, including technology and medicine.

In conclusion, the use of crystals and gemstones within the realm of New Age Spirituality represents a harmonious blend of ancient wisdom and modern mindfulness. As practitioners continue to explore the profound connections between these exquisite stones and their own spiritual journeys, the allure and mystique of crystals and gemstones remain as captivating as ever, fostering a deeper understanding of the intricate relationship between the Earth, its treasures, and the human soul.

Exploring the Enigmatic World of Rum:

A Global Journey Through the Beloved Spirit

RUM, a timeless spirit revered for its rich history and diverse array of flavors, continues to captivate the hearts and palates of enthusiasts worldwide. This comprehensive news article embarks on a global expedition to uncover the multifaceted world of rum, traversing its origins, production processes, cultural significance, flavor profiles, and more.

A Glimpse into the Past: Origins and Early Days

The fascinating tale of rum transports us to the 17th-century Caribbean sugarcane plantations. In this lush setting, enterprising individuals discovered the potential of fermenting and distilling sugarcane byproducts, giving birth to the spirit we now know as rum. This humble genesis marked the beginning of an extraordinary journey through time.

The Artistry of Rum Production: A Meticulous Process

Crafting rum is an intricate art that commences with the mighty sugarcane. The sugarcane juice or molasses, a byproduct of sugar production, embarks on a transformative journey through fermentation, where sugars metamorphose into alcohol. Often, unique wild yeast strains contribute to the distinct character of each rum. Following this, the liquid undergoes distillation to separate alcohol from impurities.

The pivotal phase where magic truly transpires is the aging process. Within oak barrels, similar to fine wines and whiskeys, rum matures gracefully. Factors such as aging duration, oak type, and the barrel's previous contents bestow upon the rum its final flavor, aroma, and hue.

The world of rum offers a remarkable spectrum of styles:

Light Rum: Also known as white or silver rum, this variety undergoes brief aging, resulting in a mild and crisp flavor profile.

Dark Rum: Aged for a longer duration and often within charred oak barrels, dark rum boasts a richer taste and a

deeper, more robust color.

Spiced Rum: Infused with spices and sometimes caramel, this variety exudes a warm, aromatic character, making it a favorite for cocktails and sipping alike.

Aged Rum: These rums are patiently nurtured for extended periods, sometimes spanning decades. They offer complex, velvety, and refined flavors, often reminiscent of vanilla, caramel, and tropical fruits.

Overproof Rum: Distinguished by a higher alcohol content than standard rums, overproof rums often serve as bold choices for daring cocktails and mixology experiments.

A Global Tapestry of Rum-Producing Regions

While the Caribbean is synonymous with rum, its influence extends far beyond its tropical shores. Nations such as Jamaica, Cuba, Puerto Rico, and Barbados have earned international acclaim for their rum production. Yet, Latin American countries like Venezuela and Guatemala also craft exceptional aged rums, adding their unique flavors to the global rum mosaic. Remarkably, rum finds a home in various corners of the world, including the Philippines, India, and even Australia.

Sensory Delights: Exploring Flavor Profiles

One of rum's most alluring facets is its diverse flavor profiles. Tasting notes frequently encompass hints of vanilla, caramel, tropical fruits, spices, and more. Each sip embarks on a sensory voyage, inviting connoisseurs to explore the Cultural Significance and Traditions

Rum transcends being a mere beverage; it's an integral part of cultures and traditions worldwide. In the Caribbean, it is deeply woven into festivals, rituals, and celebrations. However, it is imperative to acknowledge rum's historical involvement in the transatlantic slave trade, where it served as a major export from the Caribbean to Europe.

Pairing Pleasures: Rum and Gastronomy

Rum's remarkable compatibility with diverse foods presents yet another realm to explore. It harmonizes beautifully with tropical fruits, chocolates, seafood, and spicy dishes, elevating the dining experience and offering an extensive palette of delightful combinations.

A World to Embrace

Whether savored neat, blended into cocktails, or paired with sumptuous dishes, rum offers a culturally rich and diverse experience for those who appreciate its history, craftsmanship, and sensory delights. Raise a glass to the world of rum, where each sip tells

Cigarette Smoking Decline:

Factors Driving the Global Trend

IN recent decades, there has been a notable decline in cigarette smoking across various regions worldwide, owing to a confluence of factors that have collectively shaped this transformative trend.

These factors reflect a paradigm shift in public health consciousness and policy, ultimately contributing to a reduction in smoking prevalence.

Enhanced Health Awareness:

A pivotal driver in the diminishing rates of cigarette smoking has been the heightened awareness surrounding the dire health ramifications linked to this habit.

An increased understanding of the severe risks associated with cigarette consumption, including but not limited to lung cancer, cardiovascular diseases, and respiratory ailments, has not only deterred individuals from initiating smoking but has also prompted existing smokers to contemplate cessation.

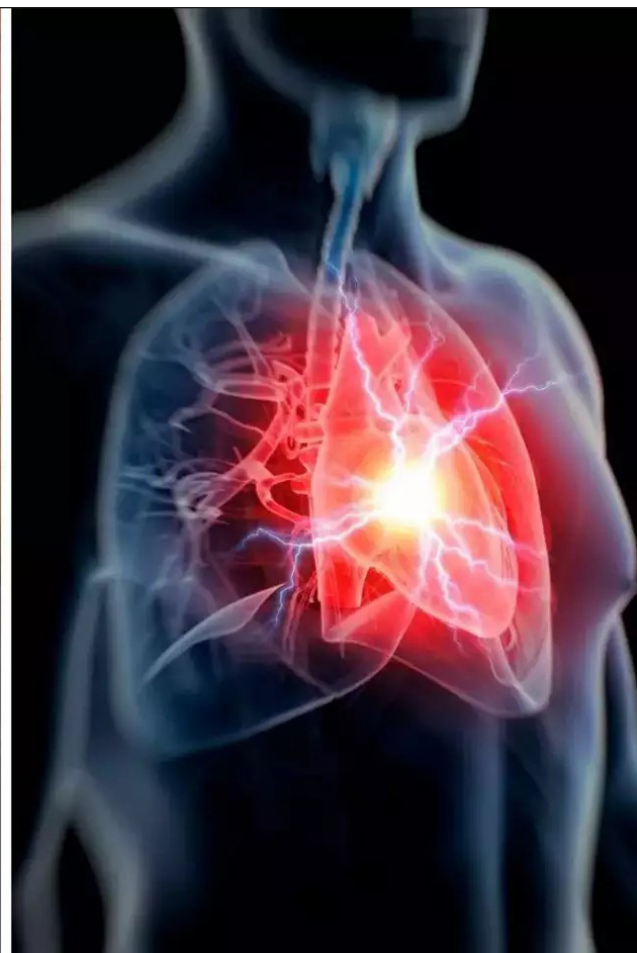

Anti-Smoking Campaigns:

Governments and public health entities have undertaken expansive anti-smoking campaigns designed to disseminate knowledge concerning the perils of smoking.

These campaigns employ a multifaceted approach, utilizing graphic depictions and stark messages to elucidate the adverse health consequences of tobacco use. The goal is to empower individuals with information to make informed choices about their smoking habits.

Regulatory Measures and Fiscal Policies:

Stringent regulation and higher taxes on cigarettes have rendered smoking a

less economically viable and accessible choice. Governments have imposed rigorous restrictions on tobacco advertising and sales to mitigate its allure, actively discouraging its consumption. These measures are devised to act as deterrents, curbing the prevalence of smoking.

Emergence of Alternatives:

The advent of alternative nicotine delivery systems, such as e-cigarettes and vaping, has presented smokers with potentially less harmful options. Although these alternatives are not devoid of concerns, they have emerged as viable alternatives for those seeking to reduce or cease traditional cigarette use.

Shifting Social Norms:

Evolution in societal norms has also contributed significantly to the decline in smoking. Increased restrictions on smoking in public spaces, workplaces, and even private residences have

collectively curtailed smoking rates, while simultaneously engendering a diminished social acceptability of the practice.

Emphasis on Healthier Lifestyles:

A resolute emphasis on healthy living, regular exercise, and overall wellness has prompted many individuals to view smoking cessation as a pivotal component of their broader commitment to enhanced well-being.

While cigarette smoking rates are experiencing a decline in many regions, it remains imperative to underscore that smoking continues to pose substantial health risks for those who persist with the habit.

As such, public health endeavors aimed at reducing smoking prevalence and providing accessible resources for smoking cessation remain indispensable to foster a healthier global populace.

Reclaiming Hope and Healing:

Your Path to Overcoming PTSD

IN the intricate tapestry of life, we all encounter moments that leave indelible marks on our souls. For some, these moments transform into shadows that loom over daily existence, casting a pall over joy and tranquility.

This is the haunting reality of those grappling with Post-Traumatic Stress Disorder (PTSD). But, dear friend, I want you to know that hope and healing are never out of reach.

Acknowledging Your Battle

The first step on your journey towards healing is acknowledgment. The courage to confront the darkness within is a profound testament to your strength. By recognizing your battle with PTSD, you have already taken a giant leap towards recovery.

Seek Professional Guidance

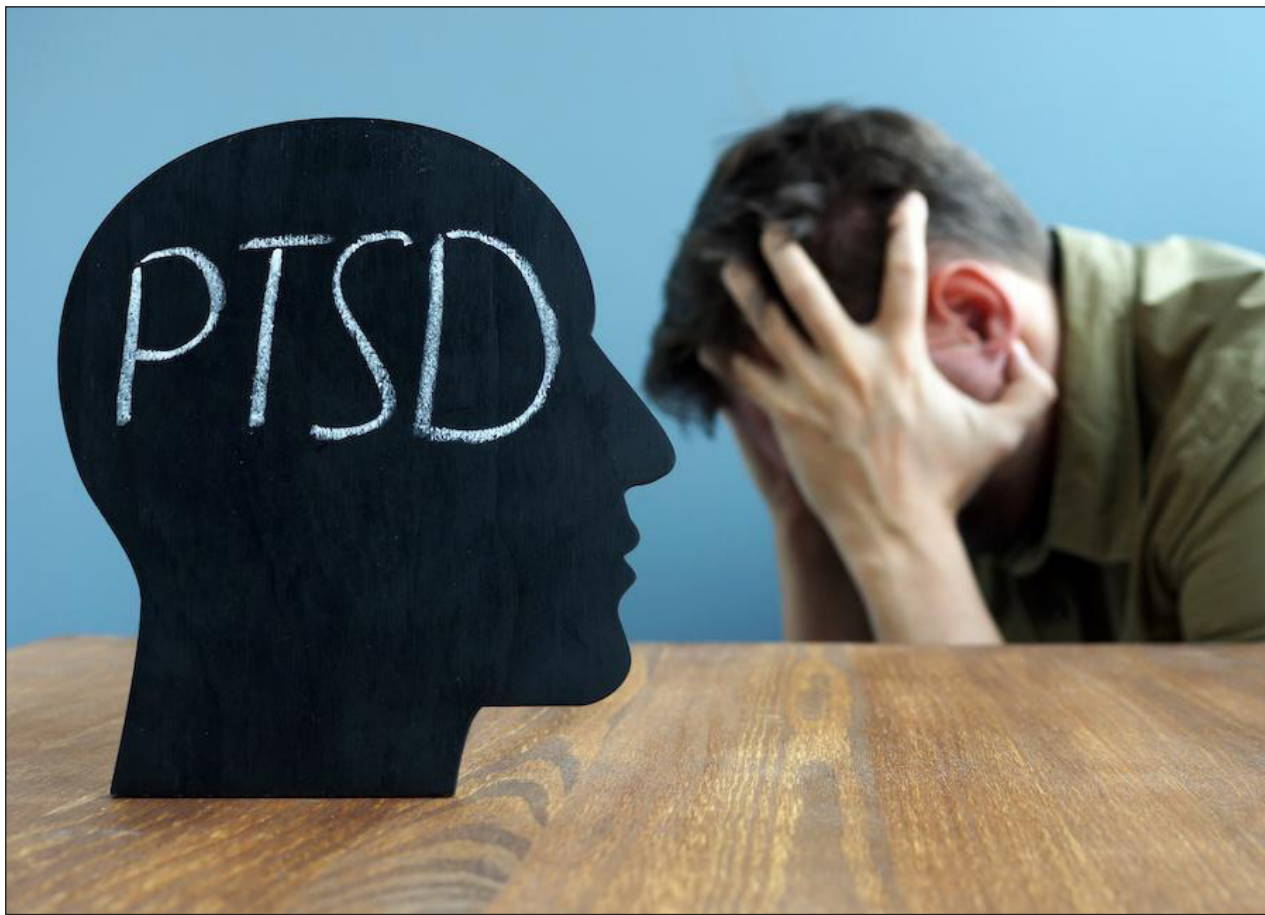

Remember, you don't have to face this battle alone. Reaching out to mental health professionals, the unsung heroes of our time, can be your lifeline. Therapists, psychologists, and psychiatrists are skilled navigators through the tumultuous waters of trauma.

The Power of Therapy

Therapy can be your sanctuary. Evidence-based therapies like Cognitive-Behavioral Therapy (CBT) and Eye Movement Desensitization and Reprocessing (EMDR) can help you rewrite the narrative of your trauma. These therapies provide the tools to reclaim your life and rewrite your story.

Medication as a Support

In some cases, medications prescribed by a compassionate psychiatrist can offer significant relief from the relentless grip of PTSD symptoms. These medications, when combined with therapy, can pave the way to emotional

freedom.

Building a Support Network

Lean on your support network, your fortress of love and understanding. Friends and family, when informed and empathetic, can be powerful allies in your battle against PTSD.

Self-Care as a Ritual

Self-care is not a luxury but a necessity. Nourish your body, mind, and spirit through exercise, balanced nutrition, restful sleep, and mindfulness practices. These acts of self-love can be transformative.

Facing Triggers with Resilience

Confront your triggers with unwavering resilience. Identifying and understanding your triggers is the first step towards conquering them. Remember, you are not defined by your past; you are sculpting your future.

Education and Empowerment

Knowledge is a potent tool. Educate

yourself about PTSD, your condition, and the journey ahead. Understanding the path you tread will empower you to navigate it with grace.

A Beacon of Hope

Dear soul, as you traverse the tumultuous terrain of PTSD, remember that you are not alone. Your path to healing may be challenging, but it is also a path paved with unwavering courage and determination.

Reclaim your life, embrace your resilience, and never lose sight of the beacon of hope on the horizon.

Your journey towards healing is an act of profound self-love and an inspiration to others who walk this path.

Together, we can rise above the shadows, emerging into the radiant light of recovery. You are stronger than you know, and your story is a testament to the indomitable human spirit.

Haute Couture as a Canvas:

Fashion's Artistic Revolutionaries

FASHION has an incredible capacity to transcend its utilitarian role and transform into a powerful form of artistic expression. This metamorphosis has given rise to legendary designers like Alexander McQueen, Coco Chanel, and Yves Saint Laurent, whose groundbreaking work has elevated fashion to the hallowed realm of art. These visionaries draw inspiration from a myriad of sources, fusing their creativity, experiences, and cultural influences to craft iconic pieces that find homes in museums and galleries worldwide.

Alexander McQueen:

Alexander McQueen, known as the “enfant terrible” of British fashion, was a designer who fearlessly pushed the boundaries of conventional design. His inspiration often sprang from his fascination with the macabre, nature’s raw beauty, and historical references. McQueen’s iconic piece, the “Armadillo” shoe, was inspired by a photograph of an orchid. His collection “The Girl Who Lived in the Tree” was influ-

enced by the Celtic heritage of his Scottish ancestry, evoking ancient forests and mythical creatures. McQueen’s ability to marry dark romanticism with impeccable craftsmanship resulted in awe-inspiring and provocative creations.

Coco Chanel:

Coco Chanel, a pioneer of modern fashion, drew inspiration from her life experiences and a desire for practicality and comfort. Her groundbreaking “Little Black Dress” was a departure from the ornate styles of the early 20th century, influenced by her observa-

tions of the clothing worn by working-class women. Chanel’s love for menswear-inspired fashion can be traced back to her time spent at a convent, where the nuns’ austere attire left a lasting impression. Her use of jersey fabric, traditionally associated with undergarments, revolutionized women’s

fashion by prioritizing comfort and freedom of movement.

Yves Saint Laurent:

Yves Saint Laurent’s inspiration was deeply intertwined with art and culture. He found muse in the works of famous artists like Piet Mondrian and Vincent van Gogh. His iconic “Mondrian Dress” was a tribute to the Dutch artist’s geometric compositions. Saint Laurent’s fascination with different cultures led to collections inspired by Russian folklore, Moroccan opulence, and the Beat Generation. His “Le Smoking” tuxedo suit for women was a rebellion against gender norms and an homage to androgyny, breaking new ground in the fashion world.

In essence, these legendary designers transcended fashion’s utilitarian constraints by drawing inspiration from a rich tapestry of sources. They blended personal experiences, cultural influences, art, and even the unconventional to create pieces that not only adorned the human body but also adorned the walls of esteemed museums and galleries. Their visionary approach to fashion continues to inspire and shape the industry, reminding us that fashion is indeed an art form that reflects the human spirit’s boundless creativity.
